Agenda Item

Report to: Adult Social Care Scrutiny Committee

Date: 14 September 2006

Title of report: Quarter Four (Q4) monitoring report against the 2005/06 Council

Plan.

By: Director of Law & Personnel

Purpose of

To provide the scrutiny committee with an end of year summary

report: of performance against the 2005/06 Council Plan

RECOMMENDATION

The scrutiny committee is recommended to:

- 1. note the achievements during 2005/06 and the end of year performance results;
- 2. highlight those performance results which are of particular concern and ensure monitoring of these are timetabled into the committee's forward programme; and
- 3. establish a scrutiny review board to investigate in detail a number of critical performance indicators and report back to the next committee with its findings and recommendations to the November meeting.

1.0 Financial implications

1.1 There are no financial implications directly associated with this report.

2.0 Notable corporate achievements/awards for this quarter:

- 2.1 The committee will wish to note the selection of achievements at the end of 2005/06, listed from across the portfolios:
 - The level of Delayed Transfers of Care (DTC's) was scored as unachieved at quarter 3, this has, however, been recovered. The snapshot position as of the end of March was that there were 56 DTCs the average throughout the year was 75, an improvement against the target of 79. As of 8 June the snapshot position of DTC was 49;
 - Better placement choice and stability for looked after children has been achieved through increases in all types of foster care including an increased pool of black and minority ethnic carers and specialist foster carers for disabled children. This year 30 foster carers were approved, 34 adopters were recruited and 36 children were matched to approved permanence foster carers in 2005/06 (against the target of 15);
 - Ten local safety schemes have been implemented, the speed limits in four villages have been revised, four major traffic calming schemes have been completed along with two new signalised crossings;
 - The percentage of buildings accessible to disabled users increased to 51.8% against a target of 50%, up from 35% last year;

- We received 'top twenty' status for the Council's website in the Society of IT Managers (SOCITM) annual national website review. This is the 'gold standard' for local authority websites and we competed against nearly 470 websites across the country; and
- The number of days lost to staff sickness continues a trend of reduction to 8.61 days per full time equivalent employee from 8.65 days in 2004/05 and 8.93 days in 2003/04.

3.0 Performance against Key Service Targets

- 3.1 Appendix 1 provides a summary of performance measures which have been scored red in the fourth quarter. The table also provides information on whether the measure has performed better or worse than in 2004/05.
- 3.2 The committee may wish to highlight those performance results which are of particular concern and ensure monitoring of these are timetabled into the committee's forward programme.

4.0 Establishment of a scrutiny review board

- 4.1 The Adult Social Care Three Year Plan 2007 2010 sets out a performance improvement agenda to achieve twin goals of improving user and carer experience and providing value for money. The focus is on improving quality for service users. Some of the measures include how referrals are received, how quickly assessments are made, care plans are completed and services delivered.
- 4.2 This year ASC are already exploring the following Performance Indicators with a view to improving performance:
 - PAF D55 / BVPI 195 Acceptable waiting times for assessments
 - PAF E50 / BVPI 196 Assessment of adults and older people leading to provision of service
 - PAF C62 Services for carers
 - PAF D56 Acceptable waiting times for care packages
 - PAF D39 Percentage of people receiving a statement of their needs and how they will be met
 - PAF D40 Clients receiving a review
 - PAF D41 Delayed transfers of care.
- 4.3 The scorecard attached at appendix 2 outlines these indicators in more detail
- 4.4 It is recommended that the Committee establishes a scrutiny review board of three members to examine these performance indicators in detail, and to report its findings and recommendations to the Scrutiny Committee in November.
