Report to: Scrutiny Committee for Audit, Best Value and Community Services

Date: 1 June 2012

By: Assistant Chief Executive

Title of report: Annual update of the use of agency staff in East Sussex County

Council

Purpose of report: Annual update to consider the latest information available about the

use of agency staff via Comensura, highlighting any matters causing

concern.

RECOMMENDATION: The Committee is recommended to note the findings and conclusion from the latest information presented.

## 1. Financial Appraisal

1.1 There are no direct financial implications resulting from the recommendations in this report.

#### 2. Background

- 2.1 The Committee received a report on 4 March 2011 presenting the outcomes of the scrutiny review of the use of agency staff and consultants in the Council. A progress update was requested for November 2011 that recommended an annual report should be scheduled to Audit, Best Value and Community Services Scrutiny Committee showing the year end out-turn figures and performance levels for agency staff.
- 2.2 The Comensura Management Information Group, (comprising of Comensura and Council representatives) meets quarterly to monitor operational issues concerning the day to day management of the contract and key performance indicators.
- 2.3 In October 2011 Agency Worker Regulations 2010 (AWR) came into force giving agency workers the same basic working and employment conditions as directly appointed staff. An impact assessment prepared by Comensura indicated that there would be a 2.77% increase in costs as a result of the introduction of the Regulations which was shared with the wider management team. The Regulations have been fully implemented across the Comensura contract.
- 2.4 A re-procurement exercise was undertaken in 2011 following a decision to extend the existing Comensura contract for one year (1 July 2011 30 June 2012). The Human Resource Management Board concluded that the most cost effective option was to access Comensura by direct call-off from the MSTAR framework agreement. The new arrangement will commence on 2 July 2012.

## 3. Supporting Information

- 3.1 Appendix 1 contains information relating to the use of agency staff and identifies expenditure and departmental spend for 2009/10 and 2010/11 compared with 2011/12.
- 3.2 Appendix 2 is the current list of Key Performance Indicators relating to the procurement of Agency Workers by the Council.

# 4. Summary and Key findings

4.1 Total expenditure on Comensura agency staff for 2011/12 exceeded 2010/11 by £256,452, an

increase of 5%. This increased spend may have been impacted by the introduction of the Agency Worker Regulations (AWR) in October as the forecasted spend for 2011/12 based on expenditure in Quarter 1 and 2 was due to be £396,000 less than the previous year. Agency spend and its relationship to the total salary bill continues to be reviewed on a monthly basis by the Chief Officer Management Team and managers are encouraged to resource posts by alternative methods. The new pricing model introduced under the MSTAR arrangement will impact on the ability to determine the cost implications of the Regulations however it will continue to be monitored over the next financial year.

- 4.2 Adult Social Care (ASC) continues to be the largest user of agency staff with a £2.3m expenditure in 2011/12. Expenditure in the department has marginally increased year on year since the implementation of the Comensura contract however this has been counteracted by a significant reduction in spend in Children's Services. (See Appendix 1)
- 4.3 Total savings on the contract for 2011/12 are £345,665 or 6.06% which is above the minimum saving target of 5%. This is in part due to the increase in the Council's 'gain share' proportion from 65% to 70% and the cessation of fixed rates which accompanied the transfer of agency staff to the contract.
- 4.4 The Follow up report to the 2011 Internal Audit on the Agency Staff Contract and use of the Comensura system reported improved monitoring and practice and concluded substantial assurance. The report confirmed that appropriate risk monitoring arrangements were in place and that the two significant risks previously identified relating to claim duplication and Working Time Regulations had been sufficiently addressed.
- 4.5 There are 20 Key Performance Indicators (KPI's) on the Comensura contract, which are reported on monthly and monitored by Personnel, Procurement and Finance Officers. These indicators cover overall performance through to savings identified and continuous improvement as identified in Appendix 3.
- 4.6 An implementation plan is underway to manage the transfer from the current Comensura contract to the access arrangement under the MSTAR Framework. The new arrangement brings a revised pricing structure and savings model which guarantees a 2% saving against benchmark rates for the 2011/12 financial year and a gain share split of 90/10 to the Council and Comensura for any additional savings achieved beyond this. Modelling has commenced to determine the anticipated savings from the transition to the MSTAR Framework and the findings will be shared in the next report.

### 5. Recommendations

5.1 Review cost implications of the MSTAR framework agreement and new pricing structure when available. These will be provided through quarterly monitoring systems with annual reports scheduled to Audit, Best Value and Community Services Scrutiny Committee.
