It was requested when top-up funding proposals would be brought to Schools Forum, noting that there is currently no additional funding allocated.

Members were advised that top-up funding will be reviewed during the year, with further discussions to take place.

Members were informed that a meeting has been arranged with High Needs Block working group to discuss funding pressures and future arrangements.

It was confirmed that place funding will be recouped where applicable.

A question was asked as to why there was a reduction in both pre-16 and post-16 HNB funding for Special Schools.

It was noted that this reduction is due to the maintained school converting to academy status.

**5. Agenda Item 5: Growth Fund - Gary Langford (Approval Required)**

Gary Langford led on this paper. Gary outlined the proposals and requested Schools Forum approval for funding to be used for a Growth Fund.

### **5.1 Recommendation:**

Schools Forum were asked to approve an allocation of £958,100 for the 2026/27 Growth Fund.

### **5.2 Comments**

Members asked whether targeted support could be put in place to enable the Growth Fund to be allocated more quickly.

Members sought clarification and noted that Growth Fund allocations are not permitted to be rolled forward into the 2026/27 financial year.

### **6.1 Recommendation:**

Schools Forum were asked to note and approve the proposals for the Central School Services Block for 2026/27.

### **6.2 Comments:**

Members queried the inclusion of funding for non-SEND pupils. It was noted that no spend had occurred in this area and so there was flexibility to move the funds to alternative eligible areas.

It was asked whether there were alternatives to the current use of 'Historic Commitments' funding, including whether it could be used to offset pressures elsewhere and potentially moved to another block.

It was discussed that the position of the DSG is looked at in its entirety, commenting that expectations are clear that DSG pressures are considered as one funding block.

Members referred to Table 2 (Admissions and Functions and Exclusions) and asked what factors are driving the costs in this area, noting that it is influenced by a combination of funding pressures.

Elizabeth Funge and Sarah Speedie led on this item. This was a follow up to the previous Schools Forum meeting and the letter sent to Headteachers regarding the inter block transfer request.

### **8.1 Comments:**

Members sought reassurance that forthcoming White Papers would result in additional funding for schools.

Members queried the difference between *new places* and *designation*, noting that current designation funding is focused on facilities.

It was questioned how emerging needs are being supported within the current arrangements.

Members asked whether there is a cap on capital funding. It was noted that a set annual capital allocation is received from the DfE (reference year 2025/26) and commented that developing a programme is challenging due to uncertainty over future funding levels.

It was discussed schools' appetite to progress capital projects and commented that there is a need to move forward rather than wait for further clarity.

It was queried whether capital funding is open to post-16 settings and were advised that it is.

Comments were made that specialist facilities within mainstream schools can be more beneficial for budgets.

Members noted that this option should be promoted further with schools.

Members thanked the Local Authority for actions taken following the previous meeting and expressed willingness to work collaboratively to put plans in place.
