

Appendix 2

	Objector	Reason for objection	Comment
1	Resident of Hornbeam	<p>The disabled parking bay would be closer to their property than to their neighbours and will limit parking for their household.</p> <p>They are hoping to buy their house and eventually install off-street parking which would not be possible as the disabled parking bay would prevent this.</p>	<p>The disabled parking bay would overlap the frontage of each property, but would extend outside of No. 4 more than outside of No. 3. The effect on parking directly outside of their house would be minimal.</p> <p>These factors are potentially not imminent and the location of the disabled parking bay could be revised at a later date should an application be made to install off-street parking.</p>
