Carers	Stop Adult Social Care contribution to the Better Care Fund	Potential reduction in total funding available for Carer support and services. Direct impact on carer support and therefore Carers ability to continue in their caring role which is likely to result in increased demand and cost pressure on the Community Care budget		173	136		-							
Supporting People	Review Supporting People funding for floating housing support services: Home Works for people aged 16-64 and STEPS for people aged 65 and over	Potential reduction in funding will directly impact vulnerable people with housing support needs, including those who have a disability. The services support people who are homeless or at risk of homelessness to achieve and maintain suitable accommodation and build resilience. The impact would be broadly the same on people of all ages as removal of support to people who are homeless or at risk of homelessness is not age specific. Clients with multiple and complex needs are prioritised and vulnerability, need and risk of homelessness are key determinants of eligibility.	1,681	200	795		-							
Substance Misuse	Review Substance Misuse Contracts	Potential impact on the following areas of work and activity listed below from a 20% reduction in funding. Impacts would also include reduced co- ordination of services and support for people in treatment and recovery who are often very vulnerable and living volatile lifestyles. •Coordinating the countywide implementation of the national drug and alcohol strategies •Producing drug and alcohol needs assessments •Commissioning recovery focused drug and alcohol treatment and support services •Coordinating partnership activity aimed at promoting good health and reducing drug and alcohol harm	68	20	21	-	-							
Commissioned Services				393	952									
				393	952									
Management and Support	Review of Training and Development; Staffing structures within Strategy, Commissioning, Planning, Performance & Engagement, and Contracts and Purchasing Unit	Review of the provision and access to training and development, with potential impact on support and training to operational staff. Review of staffing and capacity across Strategy and Commissioning, Planning Performance & Engagement and Contracts and Purchasing. Potential impact on staffing numbers.	3,184	716	716									у
Management and Support	Assessment and Care Management Staffing; Complaints Unit	Review of staffing levels and support available to operational services including operational guidance; translation of national policy into local practice; Review of capacity to respond to complaints in a timely manner.		55	57									у
Management and Support				771	773

Adult Social Care: ESBT Integrated Strategic Investment Plan	ESBT whole system redesign and implementation of integrated health and social care commissioning and delivery	The transformation of the health and social care system at a time of increasing demographic pressures and financial constraint will be challenging. The scale and pace of change required across all services, taking account of the full £864m investment in the health and social care system, will present risks. There will be a need to ensure robust democratic accountability and control, the effective discharge of statutory responsibilities, strong financial control and a clear framework of managing the potential risks of unintended clinical and financial consequences. The formal agreements underpinning the integration will seek to mitigate these risks. There will be potential impacts for service users in how they access services and are supported in the future, which have already been subject to extensive consultation.		7,007	10,164	+/-	+/-			+	+

Orbis Business Services partnership will deliver seamless and resilient business services, whilst providing savings to both authorities (East Sussex and Surrey County Councils). Bringing together services will create sufficient scale to drive shared efficiencies, enable us to share skills and knowledge, and invest in technology that could otherwise be prohibitively expensive for each organisation alone. Financial savings are based on management de layering, process improvement and reduction of duplication. Orbis is expected to grow by bringing on public sector partners, and from the pursuit of income opportunities through the provision of services to public sector clients (on a contractual basis or by means of specific delegation of function). The 'compelling alternative'. The partnership incorporates the following services:	The savings proposals per year show the aggregate sum relating to the ESCC one-third share. A two-thirds share is attributable to SCC; however, it is important to remember that the one-third/two-thirds split cannot be disentangled as the proposals reflect the integrated service design. Phased changes to the Senior Management structure. Integrating and reducing, where appropriate, the layers of managerial hierarchy. The phasing allows for capacity retention during the first two years, with all savings expected to be delivered by 18/19. Phased changes to other staff costs that are based on both: existing operational delivery plan; together with (from 17/18 onwards) services that are currently being re-designed through the Orbis 'area for search' programme. These proposals will focus primarily on process improvement and the reduction of duplication of activity. Process Improvement - Making processes more	The first year will focus on: - stability of service; - embedding new senior management structures; - supporting other departments in the delivery of the change agendas; - planning and implementing the integration of all Orbis services Key factors for delivery of the Orbis Business Plan by the end of 18/19 include: - Clarity on level of interrogation of each function; - Recognising the needs of each partner, including agreement to changes in service offer as a result in service design (in line with the Target Operating Model). - Removal of cultural inertia and resistance to 'location based' support i.e. support will be provided by Orbis staff irrespective of whether they are based in Lewes, Kingston or elsewhere. Technology requirements and transitional/programme support to enable changes. Some initial modest growth proposals of currently offered services have been included. These will be dependent on being able to develop a 'marketable' offer through the business plan and a requirement for sufficient commercial skills to deliver new business. At this stage no assumptions of benefits arising from taking on new public sector partners has been included. Again, that will be a feature of the forward- looking 'compelling alternative' Orbis strategy.		981	1,396									У

<ul> <li>Personnel and Training (PAT);</li> <li>Property and Capital Investment;</li> <li>ICT;</li> <li>Procurement;</li> <li>Finance (including Internal Audit); and</li> <li>Business Operations (Shared Services).</li> </ul> These services are fully described in the Orbis Business Plan and are provided from ESCC or SCC locations. There are already degrees of integration of each of these activities as Orbis has progressed along the Partnership route.	efficient and effective through use of more standardised, streamlined processes. These can often be technology enabled to offer automation or user empowerment through self-service. Removal of duplication - Where activity is common across the two organisations, there is potential benefit through economies of scale and scope to remove duplicated effort. Growth - an initial focus on offering specialist financial and internal audit advice (including expanding current offer e.g. to schools and other public sector organisations) and Business Operations services. Non-staff savings will focus on the ICT and Business Operations areas. The savings proposals are shown net of some additional revenue costs arising out of the investment need to improve IT capability to support the delivery of integrated Orbis services.

Orbis Savings	Reconfiguration of services and reduction in staffing for Procurement, Property and Business Operations.	Across Orbis, additional savings are expected to be realised from the procurement budget that will be part of the wider restructure being undertaken in Autumn/Winter 2016/17 to allow for full year savings from April 2017, as these savings will be considered as part of the wider restructure/consultation there will be no addition consultation required. Additional savings will also be delivered from Business Operations through staff reductions in areas to be identified. Within Property, there will also be a number of capitalised work reduced and stopping specific level of Asset feasibility work. As well as to reshape and reduce Asset Teams. ESCC have stated 30% of the overall total Orbis savings, in line with the current ACR.	7,614	217										
ICT Contracts (MOBO)	Review existing ICT contracts to assess opportunities to reduce/share costs across the partnership. Specific areas and impact to be identified but focus will be on overlaps and duplication.	Potential reduction in service levels,	5,895	100										у
Property - Cleaning and Courier services (MOBO)	Review existing contracts to assess opportunities to reduce/share costs across the partnership.	Potential reduction in service levels.	2,318	74										у

Early Help 0-5	Visitor contract and achieve significant reduction in the cost (funded by Public Health) and other	<ul> <li>17/18 Reductions in non-staffing budgets such as travel, printing, equipment etc. Some reductions in Family Key Worker (FKW) posts are unavoidable with the risk that we will reduce our ability to achieve successful payment by results (PBR) troubled family claims. There is also a risk that we will be unable to stop families' needs escalating resulting in the need for more expensive social care interventions. To mitigate this we plan to reduce FKWs in areas where there are the lowest referral rates or where they are working with families with lower level needs. Reductions in agency staffing budgets will result in some Children's Centres opening for shorter hours. 18/19 The Health Visitor (HV) contract has to be re-commissioned by April 18. This is funded by Public Health. The contract value will need to be reduced significantly as part of the commissioning process. We believe that savings are possible by a more flexible use of the skills mix, management savings and ceasing work with families that have lower level needs where appropriate. The integration of HV and Children's Centres has been challenging and work is ongoing to embed the changes and there is a risk that coupled with other savings proposals, there could be an adverse impact on performance. There will also be further reductions in management, officer and support posts.</li></ul>			341	1,067	-	-	-	-				-	
Early Help 5-19	Reduction in open access youth work provision, closure of Uckfield Youth Centre, working with D&Bs and housing associations to identify alternative ways to fund and deliver youth services. Management and staff savings achieved through services being delivered more efficiently in house.		18,928	15,519	269	185	-	-	-	-				_	
Early help 0-19	models for Early Help	<b>18/19</b> The financial constraints faced by all Councils have led to some authorities considering alternative models for the delivery of early help and health visiting services. Alternative service models will need to be carefully considered to ensure viability. There is a risk that any changes, coupled with other savings proposals, could have an adverse impact on performance.				350	-	-	-	-				-

Support Services, including Admissions, Buzz and Music service	savings, efficiency savings linked to agile working, reduced use of external venues, income generation, and training budget reductions. Merger of Complaints and IFF functions to	<ul> <li>17/18 and 18/19 There may also be a reduction in support for operational managers across planning, performance, information management, organisational development and change management. This may lead to reduced responsiveness to requests for information (e.g. Planning, performance, Data Protection Access Requests and Freedom on Information Requests). Reduced ability to support departmental priorities or new initiatives such as absence management, preparation for apprentice levy or external inspections. The reduced training budget and reduced training commissioning function will limit the ability to develop the children's workforce. 17/18 Telephone support for enquiries into the Information for Families team will only be provided to the most vulnerable and for those that cannot access information, advice and guidance. 17/18 and 18/19 Fee remission changes are in the process of being implemented with schools picking up the fee remission costs for individual pupils attending their schools (on a phased basis) using pupil premium following consultation with the Schools Forum in January 2016. The staffing arrangements of the music service are currently under review with further savings proposals being developed.</li></ul>			385	296	+/-	+/-		-					
Home to School Transport		<b>17/18 and 18/19</b> Savings to Home to School Transport (HTST) as a result of policy changes implemented during 16/17 continue to accrue. Review of unsafe routes will look at whether footpaths and bridleways can be used as safe walking routes to school, therefore reducing HTST costs.	11,708	11,221	488	566	-	-							
Locality	Reductions to S17 budgets that support emergency payments eg accommodation and subsistence costs for families. Reconfiguration of SW posts within teams to reduce numbers of staff.	<ul> <li>17/18 and 18/19</li> <li>Savings are predicated on robust budget monitoring and forecasting. There is a risk that benefit changes could result in pressure being placed on the S17 budget.</li> <li>17/18</li> <li>Same level of reductions already made in 2016/17. Potential for further increase in caseloads and consequent impact on timeliness of interventions for families and on capacity to make safe decisions.</li> </ul>	12,298	11,269	0	381	-	-	-	-

SWIFT and YOT	both Public Health and external sources. Reconfiguration of	<ul> <li>17/18 and 18/19</li> <li>Income generation will mitigate impact of budget reductions and further opportunities to trade externally will be pursued vigorously.</li> <li>17/18 and 18/19</li> <li>May impact on PBR claims for Troubled Families but this will be mitigated by other Early Help services making compensatory increases.</li> </ul>	1,675	539	180	134	-	-		-					
Safeguarding and QA unit		<b>17/18 and 18/19</b> Safeguarding unit reductions are predicated on reduced numbers of LAC and CP plans. Caseloads are already above national averages and given there are currently 9.6 ftes, a further reduction of 1fte is likely to increase caseloads which could result in poor case planning.	1,378	1,265	23	53									
LAC		<b>17/18 and 18/19</b> LAC modelling shows continued reduction in numbers however impact of Unaccompanied Asylum Seeking Children will need to be factored in.	25,106	21,712	823	952	-	-	-	-				-	
SLES	Reduction in specialist posts and staff numbers, increase in traded activity and school to school support.	Reduction in SLES school improvement provision will reduce capacity to increase the proportion of good and outstanding schools that will provide capacity for school to school improvement support, and limit the effectiveness of the LA's monitoring of the performance of all schools. This could impact negatively on pupil outcomes, increase the number of underperforming schools and schools in Ofsted categories of concern. Reduction in the statutory provision of Information, Advice and Guidance (IAG) to vulnerable young people will have a significant impact on performance which we will mitigate through the use of online mechanisms for delivering information, advice and guidance to young people. However the impact of limited face to face support and tracking could reduce the participation of vulnerable young people in education, training and employment 16-19.	25,650	2,985	122	218	-	-	-					-	
ISEND and ESBAS	reduced placement costs	Education Support, Behaviour and Attendance Service (ESBAS) will work to mitigate the impact on schools by extending the LA offer of traded work. Reduction in the provision of support to schools for improving behaviour and attendance and in early intervention for pupils facing barriers to engagement. Not all of this work is statutory but helps to manage the demand for expensive, statutory and more costly intervention. Reduction in the Short Term Agency Budget and Short Breaks provision will result in additional pressures on families. Reduction in ISEND assessment and planning may lead to delays in provision beyond statutory timescales but we would mitigate this by working to reduce the number of statutory assessments and plans, through building capacity in schools and colleges to support more young people with school/college based plans. The most significant savings have been delayed to 17/18 and 18/19 in the context of pressures and demands from the current SEN reforms.	45,005	10,102	0	1,230	-	-	-						
Other	Further vacancy control, reducing travel and other non staffing costs.		152,815	64,604	808	(97)

Operations and Con	tract Management						1				1	1		
Waste Operations	Leachate Disposal	More efficient and environmentally sustainable management of closed landfill sites.	672	85										у
Waste Disposal	Change to the management of the Corporate Waste Reserve; efficiency improvements, with partners, of the service; and maximising income generation opportunities	The proposed change to the management of the Waste Reserve includes a different approach to managing risk. Moving to a different approach over a four year period reduces the risk provision from around £30m to £13m. If risks occur and have a permanent effect on the revenue budget, there would need to be a matching increase to the base budget, however the proposed approach means that funding could be found if and when required, rather than kept in reserve to a greater extent than appropriate for the medium term. Impacts of efficiency improvements will vary and, where appropriate, the relevant consultation and Member approval will be sought, with the detail of the impact defined at this stage.	28,680	25										у
Waste Disposal Service	Review of Current approach during 2017/18	The review will consider options for: demand management; asset management; income generation and the impact of any changes on residents.	28,680		800									у
Transport Hub	Restructure of Transport Hub teams	There will an impact on staff because of the reduction of staff numbers and a change of role for the staff within the teams in the Transport Hub, subject to staff consultation. There will be minimal impact on service users.	1,344	35										у
Rights of Way and Countryside Management	Efficiency savings in the Rights of Way and Countryside sites service	Minimal impact, but subject to completion of the strategic commissioning piece of work and staff consultation.	1,335	50										у
Grass Cutting	Review of grass cutting policy	Work with borough, district and parish councils the options for reducing the cost of grass cutting.	950	0	400									у
Environment service.	Increasing the coverage of	Increased SLA coverage could lead to increased workloads in the Environment team - this may necessitate prioritising work that is in accordance with the SLA's.	337	5										у

Review fees & charges across the Planning Service.	To charge for pre- application advice on major/significant County matter proposals , and review Ordinary Watercourse Consents fees.	Proponents of major schemes are unlikely to be resistant to making a pre- application charge, although they will expect a certain level of service in return, which they are probably already receiving. Proponents of smaller schemes, particularly waste uses, may be put off from having pre- application dialogue if charges are introduced. Hence, a threshold for schemes we do and do not charge for will need to be introduced. Certain District & Borough Council's may be reluctant to introduce ESCC as a party on their PPA's - we will need to clearly demonstrate the benefits of doing so. Potential that a substantial increase in OWC fees may put off people applying for OWC consent in the first place - this could lead to a greater need for enforcement. However, statutory consultation on major planning applications is assisting in identifying where OWC is required.		10	25									у
Communities						<u> </u>				L	<u> </u>			
Library and Information Service	Libraries Transformation Programme - internal review of the Library and Information Service	This extensive review of service delivery, the stock fund, opening hours and staffing structure will ensure that the current service is as efficient as possible. Staffing levels and expenditure on the stock fund will be benchmarked against other authorities, and any changes will have a low impact on the majority of our customers. During the review of opening hours, we will use management information about libraries usage to minimise the impact of any potential changes on our customers. Subject to sign off from Cabinet, proposals to change the opening hours of libraries will be publically consulted on in early 2016.	6,444	700	125	+/-	+/-	+/-						
Library and Information Service	Libraries Transformation Programme - development and implementation of the Libraries' Strategic Commissioning Strategy	The outcome of the Strategic Commissioning Strategy will potentially affect change in the overall configuration and nature of the library service in East Sussex. The implementation of the Strategy itself will optimise how the Library and Information Service is delivered, responding to current and future need, to achieve the best possible service within available resources. The outcome of the Strategy is dependent on the findings of the needs assessment, however it is estimated that it could achieve further savings during 2018/19.	6,444		750	+/-	+/-	+/-						
The Keep	Improved staff utilisation across a range of functions, increased income generation and reduction in sinking fund	An Income Generation Strategy is currently being developed. The Governance Board has approved, in principle, the approach of the sinking fund.		4	19									у
Trading Standards	Continued modernisation of the Trading Standards Service	A current project specific, fixed term contract and pay protection for a number of staff end during March 15/16. In addition, there will be increased income raised through a new partnership with an approved trader scheme.		122										у

Registration Services	surplus of £60,000 in addition to the current target of £215,800 which has been exceed three	The Registration service have consistently exceed their income target year on year. This is despite the absence of Southover Grange in Lewes as this is being refurbished. This will be completed as our flagship register office in the Spring/Summer of 2017. The move to Hastings Town Hall in 2016.17 has seen an increase in ceremony income and this is expected to increase again once Southover Grange is open. It has been calculated that an additional £60,000 income should be achievable once Southover Grange is open and Hasting Town Hall continues to increase bookings.	1,262	60										у

## Summary of Equality Impact Assessment for RPP&R 2017/18

## **Equalities Implications**

Following the introduction of the Equality Act 2010 ('the EA') a public authority must, in the exercise of its functions, have due regard to the need to -

(a) eliminate discrimination, harassment, victimisation and any other conduct that is prohibited by or under the EA;

(b) advance equality of opportunity between persons who share a relevant protected characteristic (as defined by the EA) and persons who do not share it;

(c) foster good relations between persons who share a relevant protected characteristic and persons who do not share it.

The protected characteristics set out in the EA are as follows:

- Age
- Disability
- Gender Reassignment
- Pregnancy/ maternity
- Race
- Religion or Belief
- Sex
- Sexual Orientation

- Marriage and civil partnership are also protected characteristics for the purposes of the duty to eliminate discrimination.

Prior to making a decision as to which savings proposals should be agreed in the budget, Members must have due regard to the Equality Duty contained in Section 149 of the EA.

Having "due regard" does not necessarily require the achievement of all the aims set out in section 149 of the EA. Instead it requires that Members' understand the consequences of the decision for those with the relevant protected characteristics and consider these alongside other relevant factors when making the decision to pursue one course of action rather than another, alternative, course of action that may have different consequences. The regard which is necessary will depend upon the circumstances of the decision in question, and should be proportionate. Even though not all decisions will be made about which saving proposals to pursue at this stage it is necessary for the Council to begin to understand the potential impacts.

This means that in setting the Budget, the three equality aims set out above must be considered as a relevant factor alongside financial constraints and all other relevant considerations. Members' must have in mind the equalities impacts, and in particular the negative impacts, that agreeing savings will have for those with protected characteristics. Despite maximising efficiency and exploiting new ways of working, the business planning process for 2016/17 and beyond requires difficult choices to be made both within and between portfolios and services.

It is open to the Council to formulate its budget proposals (having regard to the likely impact on protected characteristics, as set out in the table), and then, at the time of developing the policies, the Council will consider in greater detail the specific impact of the proposed policies that might be implemented within the budgetary framework. Assessing the impact of proposed changes to policies, procedures and practices is not just something the law requires, it is a positive opportunity for ESCC to ensure it makes better decisions based on robust evidence.

The EA does not require an equality impact assessment (EqIA) to be carried out; however, cases considering the public sector equality duty have held that an EIA is the best way to demonstrate that the equalities impacts have been identified and considered. As such an assessment of the likely impacts of proposals or policies on those with protected characteristics will be carried out at a formative stage, and before implementation. In this way, the EIA will form an integral part of the Council's policy setting. Proposals will only be implemented after due regard has been paid to the need to achieve the three aims set out in Section 149 of the EA.

It is open to the Council to formulate its budget proposals (having regard to the likely impact on protected characteristics, as set out in the table), and then, at the time of developing the policies, to consider in greater detail the specific impact of the proposed policies that might be implemented within the budgetary framework.

Where it is the case that decisions as to how achieve savings within the agreed budget limit will be taken in-year, a high level assessment of the equality impacts of the savings is set out within the table attached. Subsequently, specific executive decisions will be taken by the relevant portfolio holders and Directors, and shall be made based on a clear understanding of what the potential impacts of doing one thing rather than another will be for the communities in East Sussex. It will be open to Directors and Lead Members at the time of taking those decisions to spend more on one activity and less or none on another or, where necessary to go back to County Council and invite it to reconsider the allocation to different service areas.

Findings on possible impact from an overall review of savings proposals

The tables attached show the potential impact of the initial, suggested reductions in budgets for each department and highlights that the budget reductions will broadly impact on the 'protected characteristics' of age and disability as people within these groups are those who are most likely to be accessing our services. It is possible that decisions will have a disproportionate impact due to geographic location, or on different communities such as disabled people, younger or older people, BME communities as well as from the cumulative effect of any decisions made.

Members will need to ensure that the impacts on those with protected characteristics and the most vulnerable are considered when either revising or removing current services, or where services transfer to partner organisations. Additional work will be required to identify the impacts on those with protected characteristics, which will take place as policies are developed, following the setting of the revenue budget.

The public sector equality duty set out in the EA is a continuing one, and it will therefore be necessary to monitor the effects of decisions and policies, not only during their formulation, but also after implementation.

In preparing the budget and considering individual savings proposals, Members have, in addition to the Section 149 Public Sector Equality Duty, to consider whether the budget as a whole and the individual savings proposals identified will indirectly discriminate against persons with any of the protected characteristics. Indirect discrimination occurs where a practice, policy or rule of the County Council which otherwise seems neutral (i.e. it applies to everyone affected in the same way) nevertheless places people with one or more of the protected characteristics at a particular disadvantage.

Even where a particular disadvantage has occurred, the proposal will not amount to indirect discrimination if it can be demonstrated that there is an objective justification for the proposal; i.e. that the proposal is a proportionate means of achieving a legitimate aim. Where it can be demonstrated that a particular savings proposal is a proportionate means of achieving a legitimate aim, that proposal will not be indirectly discriminatory. However, if there is no legitimate aim, or if the means of achieving the aim are not proportionate, for a savings proposal which creates a particular disadvantage, that savings proposal would amount to indirect discrimination and would be unlawful under the Equality Act 2010.

The consideration of indirect discrimination has included an analysis of (a) whether there is any particular disadvantage as a result of each relevant proposal, (b) whether there is a legitimate aim and (c) whether the means of achieving the aim is proportionate. The legitimate aims that relate to the savings proposals are:

- the County Council must achieve savings to its budget;

across the Council's budgets, all areas are facing a reduction in funding (and therefore, looking at the budget more broadly, all protected characteristics will be impacted by reductions in service); and
the County Council must deliver its statutory services and therefore a significant proportion of the available funding must be used for those statutory services.

Where it has been identified that a proposal may have a particular disadvantage, consideration has to be given as to whether there may be a more proportionate means of achieving these aims. In respect of certain Adult Social Care savings, it is considered that a more proportionate means of achieving the aims identified above would be to use the 3% Adult Social Care precept to mitigate those savings, and this has influenced the final recommendations made. However, in all other respects, it is considered that both the overall budget, and the specific savings proposals identified in are proportionate means to achieve the Council's legitimate aims set out above.
