Carers	Stop Adult Social Care contribution to the Better Care Fund	Potential reduction in total funding available for Carer support and services. Direct impact on carer support and therefore Carers ability to continue in their caring role which is likely to result in increased demand and cost pressure on the Community Care budget		136
Supporting People	Review Supporting People funding for floating housing support services: Home Works for people aged 16-64 and STEPS for people aged 65 and over	Potential reduction in funding will directly impact vulnerable people with housing support needs, including those who have a disability. The services support people who are homeless or at risk of homelessness to achieve and maintain suitable accommodation and build resilience. The impact would be broadly the same on people of all ages as removal of support to people who are homeless or at risk of homelessness is not age specific. Clients with multiple and complex needs are prioritised and vulnerability, need and risk of homelessness are key determinants of eligibility.	1,681	795
Substance Misuse	Review Substance Misuse Contracts	Potential impact on the following areas of work and activity listed below from a 20% reduction in funding. Impacts would also include reduced coordination of services and support for people in treatment and recovery who are often very vulnerable and living volatile lifestyles. •Coordinating the countywide implementation of the national drug and alcohol strategies •Producing drug and alcohol needs assessments •Commissioning recovery focused drug and alcohol treatment and support services •Coordinating partnership activity aimed at promoting good health and reducing drug and alcohol harm	68	21

Adult Social Care: ESBT Integrated Strategic Investment Plan	ESBT whole system redesign and implementation of integrated health and social care commissioning and delivery	The transformation of the health and social care system at a time of increasing demographic pressures and financial constraint will be challenging. The scale and pace of change required across all services, taking account of the full £864m investment in the health and social care system, will present risks. There will be a need to ensure robust democratic accountability and control, the effective discharge of statutory responsibilities, strong financial control and a clear framework of managing the potential risks of unintended clinical and financial consequences. The formal agreements underpinning the integration will seek to mitigate these risks. There will be potential impacts for service users in how they access services and are supported in the future, which have already been subject to extensive consultation.		10,507
