

# East Sussex Better Together (ESBT) Alliance Outcomes Framework

The ESBT Alliance Outcomes Framework shows our commitment to measuring our progress against the health and care priorities that matter to you. For local people using our services in the new ESBT Alliance, that means a way to measure whether the services they receive (activities) will improve their health, well-being and experience of care and support (outcomes). Overall we want to improve the health and wellbeing of our population, the quality and experience of health and care services, and keep this affordable. The measures and key indicators in this document have been chosen because they are what people have told us is important to them, and will give us a good indication of overall system performance.

## Population health and wellbeing

The impact of services on the health of the population such as preventing premature death and overall prevalence of disease.

Objective	Outcome
Improve health and wellbeing for local people	<ul style="list-style-type: none"> <li>Children are supported to have a healthy start in life</li> <li>People are supported to have a good quality of life</li> <li>People are supported to live in good health</li> </ul>
Reduce health inequalities for local people	<ul style="list-style-type: none"> <li>Inequalities in healthy life expectancy are reduced</li> </ul>

## Transforming services for sustainability

The way services work and how effective they are at impacting positively on the people who use them.

Objective	Outcome
Demonstrate financial and system sustainability	<ul style="list-style-type: none"> <li>People have access to timely and responsive care</li> <li>People access acute hospital services only when they need to</li> <li>Financial balance is achieved across the system</li> </ul>
Deliver joined up information technology	<ul style="list-style-type: none"> <li>People and staff working within the system have access to shared and integrated electronic information</li> </ul>
Prioritise prevention, early intervention, self care and self management	<ul style="list-style-type: none"> <li>Interventions take place early to tackle emerging problems, or to support people in the local population who are most at risk</li> </ul>

## The experience of local people

The experience people have of their health and care services.

Objective	Outcome
Put people in control of their health and care	<ul style="list-style-type: none"> <li>People and their carers feel respected and able to make informed choices about services</li> <li>People and their carers have choice and control over services and how they are delivered</li> </ul>
Good communication and access to information for local people	<ul style="list-style-type: none"> <li>People can find jargon free health and care information in a range of locations and formats</li> <li>Health and care services talk to each other so that people receive seamless services</li> </ul>
Deliver services meet people's needs and support their independence	<ul style="list-style-type: none"> <li>People are supported to be as independent as possible</li> <li>People are supported to feel safe</li> </ul>

## Quality care and support

Making sure we have safe and effective care and support.

Objective	Outcome
Provide safe, effective and high quality care and support	<ul style="list-style-type: none"> <li>People are supported by high quality care and support</li> <li>People are kept safe and free from avoidable harm</li> </ul>
Deliver person centred care through integrated and skilled service provision	<ul style="list-style-type: none"> <li>People are supported by skilled staff, delivering person-centred care</li> </ul>
