

Report to: Pension Committee

Date of meeting: 22 June 2020

By: Chief Finance Officer

Title: Pension Fund Risk Register

Purpose: To consider the Pension Fund Risk Register

RECOMMENDATIONS

The Committee is recommended to consider and comment on the Pension Fund Risk Register

1. Background

1.1 Risk management is the practice of identifying, analysing and controlling in the most effective manner all threats to the achievement of the strategic objectives and operational activities of the East Sussex Pension Fund (ESPF or “the Fund”). It is not a process for avoiding or eliminating risks. A certain level of risk is inevitable in achieving the Fund objectives, but it must be controlled.

1.2 Effective risk management is an essential part of any governance framework as it identifies risks and the actions required to mitigate their potential impact. For a pension fund, those risks will come from a range of sources, including the funding position, Local Government Pension Scheme (LGPS) Pooling, General Data Protection Regulation (GDPR), investment performance, membership changes, benefits administration, costs, communications and financial systems. Good information is important to help ensure the complete and effective identification of significant risks and the ability to monitor those risks.

2. Supporting Information

2.1 The **Risk Register** at Appendix 1 has been updated since the last meeting for the circumstances as outlined below:

2.2 The onset of Coronavirus and Covid-19 is placing significant pressures on both Employers to the Fund and the Pension Administration Service. The increased demand for Pension Administration Services may increase the likelihood of breaching service performance targets and presents resourcing constraints since staff may be subject to the illness themselves. In addition, the migration to remote working has seen an increase in the likelihood of Cyber Scams and Data Protection.

2.3 The Pension Regulator issued a notice on the 2 April 2020 to Scheme Managers of Public Service Pension Schemes to carry out a risk assessment of their Pension Administrator in relation to Covid 19. The Scheme Manager is required to assess whether the ESPF business continuity plan is still adequate and to establish from the Pension Administrator what contingency plan is in place to mitigate their impact of increases in work volumes or unavailable staff.

2.4 A collaborative approach is required to work with your administrators to make sure they deliver critical processes: reducing the burden by limiting any non-critical demands and queries; and, confirm the priorities of activities to be carried out, in the order set out below:

- paying members’ benefits
- retirement processing
- bereavement services, as well as any administrative functions required to support these
- any processes needed to ensure benefits are accurate

This includes the agreement of changes in operating procedures such as allowing electronic signatures and documents and encouraging other third-party providers to do the same. The legal validity of electronic signatures has been endorsed in a recent statement from government.

2.5 The Chancellor, Rishi Sunak, in his March Statement advised a suite of financial relief measures to alleviate economic duress arising from the global lockdown and the corresponding liquidity squeeze. It is clear that despite attempts by the Government to prevent a permanent structural impact, a number of companies that existed prior to the lockdown will not exist after the lockdown due to the severity of this economic shock. It follows that the ESPF has seen an increase in employers advising they need to defer the payment of employer contributions to the Fund, noting that employee contributions are legally prohibited from deferral. The Fund is working on a policy on the deferral of employer contributions and has managed the early requests on a case by case basis.

2.6 In managing the economic consequence of a global lockdown and the increasing need to build up cash reserves has given rise to dividend retention. This impacts the cashflow balances of pension funds which are required to service pension promises. The ESPF has therefore commenced cashflow modelling to ensure it can manage within its cash envelope and to mitigate against forced sales of assets to service pension promises.

2.7 Covid 19 has also impacted the progress of the Data Improvement Programme and the Annual Benefit Statement exercise for 2019. It has been difficult to make contact with employers in lockdown and those staff are generally redirected to business critical tasks of the employer.

2.8 In summary, the Covid 19 Risk is a global risk affecting a number of risk indicators, so it has been necessary to rebalance both the pre-mitigation and post mitigation response as set out in summary in the table below. Also, a new indicator for Covid 19 is included at risk (17) and a further new risk (18) relating to market cost pull pressures such as pay and inflation.

Table 1 Rebalancing Pre and Post Mitigation Risk Scores

Ref	Reason for Change	Change to pre-mitigation score	Change to post mitigation score	Score
2	End of Heywood's contract and changeover to new system. Several converging key risks on data issues and potential business interruption. Reported elsewhere on the agenda	From 3 x 3 To 4 x 3	From 3 x 3 To 4 x 3	
9	Covid 19 economic lockdown has increased the pre-mitigation scores	From 2 x 3 To 3 x 3	From 2 x 3 To 3 x 3	
10	Covid has increased reliance on remote working and the increase in Cyber crime and scams	From 4 x 2 To 4 x 3	From 3 x 2 To 4 x 2	
13	The high level of prudence in the actuarial valuation mitigates the likelihood score in pre-mitigation	From 3 x 3 To 3 x 2	From 3 x 2 To 3 x 1	
16 17 18	Access Risks - merged into a single risk (16)	(16) From 3x3 (17) From 4x2 (18) From 3x3 To 3 x 3 overall	(16) From 2 x 2 (17) From 2 x 2 (18) From 3 x 3 To 3 x 2 overall	Rebased

2.9 The UK enacted legislation to leave the EU on 31 January 2020 and therefore it may be appropriate to remove risk indicator 12 from the risk register.

3. Assessment of Risk

3.1 Risks are assessed in terms of the potential impact of the risk event should it occurs, and in terms of the likelihood of it occurring. These are then combined to produce an overall risk score. In terms of investment, the Fund has a diversified portfolio of assets to mitigate against downturns in individual markets, but market events may lead to a fluctuation in the Fund value, which demonstrates that if the markets as a whole crash, then there is little that mitigating actions can do.

3.2 The East Sussex Pension Fund, risk profile has been updated and in addition to the current mitigation in place, further actions are planned to provide a greater level of assurance, and the level of risk will be reviewed once these additional actions have been implemented.

3.3 Further risks are likely to arise from future decisions taken by the Pension Committee, ACCESS Joint Committee, and from changes in legislation and regulations. Where such new risks arise, they will be added to the risk register, assessed, and mitigation actions identified.

4. Conclusion and reasons for recommendations

4.1 Monitoring of the Risk Register is an important role for the Pension Committee. The Committee is recommended to consider and comment on the Risk Register.

Risk Register Risk Scores

The risk scores are calculated using the risk matrix below:

LIKELIHOOD	4				
	3				
	2				
	1				
		1	2	3	4
		IMPACT			

For the **likelihood**, there are four possible scores:

1 HARDLY EVER	2 POSSIBLE	3 PROBABLE	4 ALMOST CERTAIN
Has never happened No more than once in ten years Extremely unlikely to ever happen	Has happened a couple of times in last 10 years Has happened in last 3 years Could happen again in next year	Has happened numerous times in last 10 years Has happened in last year Is likely to happen again in next year	Has happened often in last 10 years Has happened more than once in last year Is expected to happen again in next year

For the **impact**, there are four possible scores, considered across four areas:

	1 NEGLIGIBLE (No noticeable Impact)	2 MINOR (Minor impact, Some degradation of non-core services)	3 MAJOR (Significant impact, Disruption to core services)	4 CRITICAL (Disastrous impact, Catastrophic failure)
SERVICE DELIVERY (Core business, Objectives, Targets)	Handled within normal day-today routines.	Management action required to overcome short-term difficulties.	Key targets missed. Some services compromised.	Prolonged interruption to core service. Failure of key Strategic project.
FINANCE (Funding streams, Financial loss, Cost)	Little loss anticipated.	Some costs incurred. Minor impact on budgets. Handled within management responsibilities.	Significant costs incurred. Re-jig of budgets required. Service level budgets exceeded.	Severe costs incurred. Budgetary impact on whole Council. Impact on other services. Statutory intervention triggered.
REPUTATION (Statutory duty, Publicity, Embarrassment)	Little or no publicity. Little staff comments.	Limited local publicity. Mainly within local government community. Causes staff concern.	Local media interest. Comment from external inspection agencies. Noticeable impact on public opinion.	National media interest seriously affecting public opinion
PEOPLE (Loss of life, Physical injury, Emotional distress)	No injuries or discomfort.	Minor injuries or discomfort. Feelings of unease.	Serious injuries. Traumatic / stressful experience. Exposure to dangerous conditions.	Loss of life Multiple casualties Pandemic
