The contents of this report relate only to the matters which have come to our attention, which we believe need to be reported to you as part of our audit planning process. It is not a comprehensive record of all the relevant matters, which may be subject to change, and in particular we cannot be held responsible to you for reporting all of the risks which may affect the Pension Fund or all weaknesses in your internal controls. This report has been prepared solely for your benefit and should not be quoted in whole or in part without our prior written consent. We do not accept any responsibility for any loss occasioned to any third party acting, or refraining from acting on the basis of the content of this report, as this report was not prepared for, nor intended for, any other purpose.

Grant Thornton UK LLP is a limited liability partnership registered in England and Wales: No.OC307742. Registered office: 30 Finsbury Square, London, EC2A 1AG. A list of members is available from our registered office. Grant Thornton UK LLP is authorised and regulated by the Financial Conduct Authority. Grant Thornton UK LLP is a member firm of Grant Thornton International Ltd (GTIL). GTIL and the member firms are not a worldwide partnership. Services are delivered by the member firms. GTIL and its member firms are not agents of, and do not obligate, one another and are not liable for one another's acts or omissions.

Key matters

Factors

Pension Fund development and the Impact of the Covid-19 Pandemic

The Pension Fund has engaged a new actuarial expert Barnett Waddingham during the 2020/21 year. Therefore the IAS26 disclosures will be produced by this new actuary. A new actuary could adopt different estimation methods and/or assumptions, and this could potentially significantly impact the content and values disclosed in the IAS26 disclosures. We have identified a risk in regards of the IAS26 Pension Fund Disclosures, and our work to address this risk is set out on page 7.

We note that there is a significant project ongoing in the Pension Fund to transfer Pension Administration and staffing from Orbis in-house to the Fund. The live date for the new Pension Administration system is 6 April 2021, and existing systems are running in parallel while testing and preparations before this date take place. This is therefore not considered to be a significant risk for the Pension Fund financial statements at 31 March 2021.

In our 2019/20 audit we held extensive discussion and challenge of investment managers to establish if there was any significant uncertainty over the valuations at year end and whether any funds had been suspended for trading due to the overall market uncertainties. This led to the disclosure by the investment manager that some funds underlying the pooled investment had been suspended at 31 March 2020, and that there was a material valuation uncertainty over the full pooled investment at that date. This was not known to the Pension Fund finance team at the time, but was then correctly disclosed in the financial statements. We made a recommendation that management challenge further the valuations and assurances given by investment managers in the 2020/21 year, and we will follow up this recommendation during our planning processes.

Other matters

In the period December 2018 to January 2020 the Financial Reporting Council issued a number of updated International Auditing Standards (ISAs (UK)) which are effective for audits of financial statements for periods beginning on or after 15 December 2019. ISA (UK) 540 (revised): Auditing Accounting Estimates and Related Disclosures includes significant enhancements in respect of the audit risk assessment process for accounting estimates. As part of this process auditors also need to obtain an understanding of the effectiveness of the role of those charged with governance relating to accounting estimates adopted by management, which is particularly important where the estimates have high estimation uncertainty, or require significant judgement.

Our response

- As a firm, we are absolutely committed to audit quality and financial reporting in the local government sector. Fee discussions are currently in progress between audit firms and PSAA. Our audit plan sets out the starting point based on the 2019/20 proposed audit fee recognising there are further additional cost pressures in 2020/21.
- We will continue to provide you with sector updates via our Audit Committee updates.
- There is a rebuttable presumed risk that revenue may be misstated due to the improper recognition of revenue. We have rebutted this risk for all types of revenue. We have also considered the risk of material misstatement due to fraud related to expenditure, and concluded that this is not a significant risk for the Pension Fund.
- There is a non-rebuttable presumed risk that the risk of management over-ride of controls is present in all entities. We have therefore identified a significant risk in regards to management override of control – refer to page 6.
- A material uncertainty was declared in 2019/20 by an investment manager for pooled property investments underlying the net pension liability. The Covid-19 pandemic is likely to continue to impact the valuation of investments and as such we will make additional inquiries to investment managers as to whether there are any material uncertainties in their valuations. We have identified a significant risk in regards to the valuation of Level 3 investments specifically as the valuation of these investments is very sensitive to key assumptions – refer to page 6.
- During this financial year, the Pension Fund has reviewed the equity portfolio and has engaged a number of new investment managers. This increases the risk of misstatement of the valuation of Level 3 investments, as the new managers apply potentially different methods and assumptions.

Introduction and headlines

Purpose

This document provides an overview of the planned scope and timing of the statutory audit of East Sussex Pension Fund ('the Pension Fund') for those charged with governance.

Respective responsibilities

The National Audit Office ('the NAO') has issued a document entitled Code of Audit Practice ('the Code'). This summarises where the responsibilities of auditors begin and end and what is expected from the audited body. Our respective responsibilities are also set out in the Terms of Appointment and Statement of Responsibilities issued by Public Sector Audit Appointments (PSAA), the body responsible for appointing us as your auditor. We draw your attention to both of these documents.

Scope of our audit

The scope of our audit is set in accordance with the Code and International Standards on Auditing (ISAs) (UK). We are responsible for forming and expressing an opinion on the Pension Fund's financial statements that have been prepared by management with the oversight of those charged with governance (the Audit committee).

The audit of the financial statements does not relieve management or the Audit Committee of your responsibilities. It is the responsibility of the Pension Fund to ensure that proper arrangements are in place for the conduct of its business, and that public money is safeguarded and properly accounted for. We have considered how the Pension Fund is fulfilling these responsibilities.

Our audit approach is based on a thorough understanding of the Pension Fund's business and is risk based.

Significant risks

Those risks requiring special audit consideration and procedures to address the likelihood of a material financial statement error have been identified as:

- Management override of controls
- Valuation of Level 3 Investments

We will communicate significant findings on these areas as well as any other significant matters arising from the audit to you in our Audit Findings (ISA 260) Report.

Materiality

We have determined planning materiality to be ££34.7m (PY £36m) for the Pension Fund statements (equating to 1% of the net assets of the prior year end). We are obliged to report uncorrected omissions or misstatements other than those which are 'clearly trivial' to those charged with governance. Clearly trivial has been set at £1.7m (PY £1.8m) for the Pension Fund.

Audit logistics

Our interim visit will take place in March 2021 and our final visit will take place between July and September 2021. Our key deliverables are this Audit Plan and our Audit Findings Report. Our audit logistics and planned timings are on page 13.

Our fee for the audit is still being assessed. Since appointment as your auditor, there have been a number of developments, particularly in relation to the updated ISAs which are relevant for the 2020/21 and subsequent audits. These together with the findings of the recent Redmond Review mean that we expect the fee to be in excess of the 2019/20 audit fee. Discussions with PSAA are currently ongoing. The 2019/20 fee was £31,610 (pending approval of a fee variance by PSAA).

We have complied with the Financial Reporting Council's Ethical Standard (revised 2019) and we as a firm, and each covered person, confirm that we are independent and are able to express an objective opinion on the financial statements..

Significant risks identified

Significant risks are defined by ISAs (UK) as risks that, in the judgement of the auditor, require special audit consideration. In identifying risks, audit teams consider the nature of the risk, the potential magnitude of misstatement, and its likelihood. Significant risks are those risks that have a higher risk of material misstatement.

Risk	Risk relates to	Reason for risk identification	Key aspects of our proposed response to the risk
ISA240 fraudulent revenue recognition	The Pension Fund	<p>Under ISA (UK) 240 there is a rebuttable presumed risk that revenue may be misstated due to the improper recognition of revenue. This presumption can be rebutted if the auditor concludes that there is no risk of material misstatement due to fraud relating to revenue recognition.</p> <p>Having considered the risk factors set out in ISA240 and the nature of the revenue streams at the Fund, we have determined that the risk of fraud arising from revenue recognition can be rebutted, because:</p> <ul style="list-style-type: none"> there is little incentive to manipulate revenue recognition opportunities to manipulate revenue recognition are very limited the culture and ethical frameworks of local authorities, including East Sussex County Council and East Sussex Pension Fund, mean that all forms of fraud are seen as unacceptable <p>Therefore we do not consider this to be a significant risk for East Sussex Pension Fund.</p>	Significant risk rebutted.
Fraudulent expenditure recognition	The Pension Fund	<p>We have also considered the risk of material misstatement due to the fraudulent recognition of expenditure. We have considered each material expenditure area, and the control environment for accounting recognition.</p> <p>We were satisfied that this did not present a significant risk of material misstatement in the 2020/21 accounts as:</p> <ul style="list-style-type: none"> - The control environment around expenditure recognition (understood through our documented risk assessment understanding of your business processes) is considered to be strong; - We have not found significant issues, errors or fraud in expenditure recognition in the prior 2 years audits; - Our view is that, similarly to revenues, there is little incentive to manipulate expenditure recognition. <p>Therefore we do not consider this to be a significant risk for East Sussex Pension Fund.</p>	Significant risk rebutted.

Significant risks identified

Risk	Risk relates to	Reason for risk identification	Key aspects of our proposed response to the risk
Management over-ride of controls	The Pension Fund	<p>Under ISA (UK) 240 there is a non-rebuttable presumed risk that the risk of management over-ride of controls is present in all entities. The Fund faces external scrutiny of its spending and stewardship of funds and this could potentially place management under undue pressure in terms of how they report performance.</p> <p>We therefore identified management override of control, in particular journals, management estimates and transactions outside the course of business as a significant risk.</p>	<p>We will:</p> <ul style="list-style-type: none"> Evaluate the design effectiveness of management controls over journals; Analyse the journals listing and determine the criteria for selecting unusual journals; Test unusual journals recorded during the year and after the draft accounts stage for appropriateness and corroboration; Gain an understanding of the accounting estimates and critical judgements applied by management and consider their reasonableness with regard to corroborative evidence; and Evaluate the rationale for any changes in accounting policies, estimates or significant unusual transactions.
Valuation of Level 3 Investments	The Pension Fund	<p>You revalue your investments on an annual basis with the aim of ensuring that the carrying value of these investments is not materially different from their fair value at the balance sheet date.</p> <p>By their nature level 3 investment valuations lack observable inputs. These valuations therefore represent a significant estimate by management in the financial statements due to the size of the numbers involved (£618 million) and the sensitivity of this estimate to changes in key assumptions.</p> <p>Under ISA 315 significant risks often relate to significant non-routine transactions and judgemental matters. Level 3 investments by their very nature require a significant degree of judgement to reach an appropriate valuation at year end.</p> <p>Management utilise the services of investment managers as valuation experts to estimate the fair value as at 31 March 2021. During this financial year, the Pension Fund have reviewed the equity portfolio and have engaged a number of new investment managers. This increases the risk of misstatement, as the new managers apply potentially different methods and assumptions.</p> <p>We therefore identified valuation of Level 3 investments as a significant risk.</p>	<p>We will:</p> <ul style="list-style-type: none"> Evaluate management's processes for valuing Level 3 investments; Review the nature and basis of estimated values and consider what assurance management has over the year end valuations provided for these types of investments; against the requirements of the Code; Independently request year-end confirmations from investment managers and custodian; For a sample of investments, test the valuation by obtaining and reviewing the audited accounts at the latest date for individual investments and agreeing these to the fund manager reports at that date. Reconcile those values to the values at 31 March 2021 with reference to known movements in the intervening period; In the absence of available audited accounts, we will evaluate the competence, capabilities and objectivity of the valuation expert; Test revaluations made during the year to see if they had been input correctly into the Pension Fund's asset register; and Where available review investment manager service auditor report on design effectiveness of internal controls.

We will communicate significant findings on these areas as well as any other significant matters arising from the audit to you in our Audit Findings Report.

Other audit risks

Risk	Risk relates to	Reason for risk identification	Key aspects of our proposed response to the risk
IAS26 Pension Fund Disclosures	The Pension Fund	As mentioned above the Pension Fund has engaged a new actuary Barnett Waddingham in the 2020/21 year. Therefore the IAS26 disclosures will be produced by this new actuary – there could be different/changed methods/assumptions and judgements made in calculating these disclosures, and as such there is a greater risk of error.	<p>We will;</p> <p>Update our understanding of the processes and controls put in place by management to ensure that the IAS26 disclosures are accurate;</p> <p>Evaluate the instructions issued by management to their management expert (an actuary) for producing the disclosures of the net liability estimate and the scope of the actuary's work;</p> <p>Assess the competence, capabilities and objectivity of the actuary who carried out the Authority's pension fund valuation and produce the IAS26 disclosures; and</p> <p>Undertake procedures to confirm the reasonableness of the actuarial assumptions made by reviewing the report of the consulting actuary (as auditor's expert) and performing any additional procedures suggested within the report.</p>

We will communicate significant findings on these areas as well as any other significant matters arising from the audit to you in our Audit Findings Report.

Accounting estimates and related disclosures

The Financial Reporting Council issued an updated ISA (UK) 540 (revised): *Auditing Accounting Estimates and Related Disclosures* which includes significant enhancements in respect of the audit risk assessment process for accounting estimates.

We identified 1 recommendation in our 2019/20 audit in relation to the Pension Fund's estimation process and disclosures around the valuation of level 3 investments. We will follow up progress on this recommendation with management as we complete our audit planning processes.

Introduction

Under ISA (UK) 540 (Revised December 2018) auditors are required to understand and assess an entity's internal controls over accounting estimates, including:

- The nature and extent of oversight and governance over management's financial reporting process relevant to accounting estimates;
- How management identifies the need for and applies specialised skills or knowledge related to accounting estimates;
- How the entity's risk management process identifies and addresses risks relating to accounting estimates;
- The entity's information system as it relates to accounting estimates;
- The entity's control activities in relation to accounting estimates; and
- How management reviews the outcomes of previous accounting estimates.

As part of this process auditors also need to obtain an understanding of the role of those charged with governance, which is particularly important where the estimates have high estimation uncertainty, or require significant judgement.

Specifically do Audit Committee members:

- Understand the characteristics of the methods and models used to make the accounting estimates and the risks related to them;
- Oversee management's process for making accounting estimates, including the use of models, and the monitoring activities undertaken by management; and
- Evaluate how management made the accounting estimates?

Accounting estimates and related disclosures

Additional information that will be required

To ensure our compliance with this revised auditing standard, we will be requesting further information from management and those charged with governance during our audit for the year ended 31 March 2021.

Based on our knowledge of the Pension Fund we have identified the following material accounting estimates for which this is likely to apply:

- Valuation of level 2 and level 3 investments

The Pension Fund's Information systems

In respect of the Pension Fund's information systems we are required to consider how management identifies the methods, assumptions and source data used for each material accounting estimate and the need for any changes to these. This includes how management selects, or designs, the methods, assumptions and data to be used and applies the methods used in the valuations.

When the models used include increased complexity or subjectivity, as is the case for many valuation models, auditors need to understand and assess the controls in place over the models and the data included therein. Where adequate controls are not in place we may need to report this as a significant control deficiency and this could affect the amount of detailed substantive testing required during the audit.

If management has changed the method for making an accounting estimate we will need to fully understand management's rationale for this change. Any unexpected changes are likely to raise the audit risk profile of this accounting estimate and may result in the need for additional audit procedures.

We are aware that the Pension Fund uses management experts in deriving some of its more complex estimates, e.g. asset and investment. However, it is important to note that the use of management experts does not diminish the responsibilities of management and those charged with governance to ensure that:

- All accounting estimates and related disclosures included in the financial statements have been prepared in accordance with the requirements of the financial reporting framework, and are materially accurate;
- There are adequate controls in place at the Pension Fund (and where applicable its service provider or management expert) over the models, assumptions and source data used in the preparation of accounting estimates.

Estimation uncertainty

Under ISA (UK) 540 we are required to consider the following:

- How management understands the degree of estimation uncertainty related to each accounting estimate; and
- How management address this estimation uncertainty when selecting their point estimate.

For example, how management identified and considered alternative, methods, assumptions or source data that would be equally valid under the financial reporting framework, and why these alternatives were rejected in favour of the point estimate used.

The revised standard includes increased emphasis on the importance of the financial statement disclosures. Under ISA (UK) 540 (Revised December 2018), auditors are required to assess whether both the accounting estimates themselves and the related disclosures are reasonable.

Where there is a material uncertainty, that is where there is a significant risk of a material change to the estimated carrying value of an asset or liability within the next year, there needs to be additional disclosures. Note that not all material estimates will have a material uncertainty and it is also possible that an estimate that is not material could have a risk of material uncertainty.

Where there is material estimation uncertainty, we would expect the financial statement disclosures to detail:

- **What the assumptions and uncertainties are;**
- **How sensitive the assets and liabilities are to those assumptions, and why;**
- **The expected resolution of the uncertainty and the range of reasonably possible outcomes for the next financial year; and**
- **An explanation of any changes made to past assumptions if the uncertainty is unresolved.**

Planning enquiries

As part of our planning risk assessment procedures we are addressing additional written enquiries to management and to those charged with governance in order to obtain the expanded understanding of the entity's internal controls required under ISA (UK) 540. We would appreciate a prompt response to these enquires in due course.

Further information

Further details on the requirements of ISA (UK) 540 (Revised December 2018) can be found in the auditing standard on the Financial Reporting Council's website:

[https://www.frc.org.uk/getattachment/0fa69c03-49ec-49ae-a8c9-cc7a2b65382a/ISA-\(UK\)-540-Revised-December-2018-final.pdf](https://www.frc.org.uk/getattachment/0fa69c03-49ec-49ae-a8c9-cc7a2b65382a/ISA-(UK)-540-Revised-December-2018-final.pdf)

Other matters

Other work

The Pension Fund is administered by East Sussex County Council (the 'Council'), and the Pension Fund's accounts form part of the Council's financial statements. Therefore, as well as our general responsibilities under the Code of Practice a number of other audit responsibilities also follow in respect of the Pension Fund, such as:

- We read any other information published alongside the Council's financial statements to check that it is consistent with the Pension Fund financial statements on which we give an opinion and is consistent with our knowledge of the Authority.
- We consider our other duties under legislation and the Code, as and when required, including:
 - Giving electors the opportunity to raise questions about your 2018/19 financial statements, consider and decide upon any objections received in relation to the 2018/19 financial statements;
 - Issue of a report in the public interest or written recommendations to the Fund under section 24 of the Act, copied to the Secretary of State.
 - Application to the court for a declaration that an item of account is contrary to law under Section 28 or for a judicial review under Section 31 of the Act; or
 - Issuing an advisory notice under Section 29 of the Act.
- We carry out work to satisfy ourselves on the consistency of the pension fund financial statements included in the pension fund annual report with the audited Fund accounts.

Other material balances and transactions

Under International Standards on Auditing, "irrespective of the assessed risks of material misstatement, the auditor shall design and perform substantive procedures for each material class of transactions, account balance and disclosure". All other material balances and transaction streams will therefore be audited. However, the procedures will not be as extensive as the procedures adopted for the risks identified in this report.

Going concern

As auditors, we are required to obtain sufficient appropriate audit evidence regarding, and conclude on:

- whether a material uncertainty related to going concern exists; and
- the appropriateness of management's use of the going concern basis of accounting in the preparation of the financial statements.

The Public Audit Forum has been designated by the Financial Reporting Council as a "SORP-making body" for the purposes of maintaining and updating Practice Note 10: Audit of financial statements and regularity of public sector bodies in the United Kingdom (PN 10). It is intended that auditors of public sector bodies read PN 10 in conjunction with (ISAs) (UK).

PN 10 has recently been updated to take account of revisions to ISAs (UK), including ISA (UK) 570 on going concern. The revisions to PN 10 in respect of going concern are important and mark a significant departure from how this concept has been audited in the public sector in the past. In particular, PN 10 allows auditors to apply a 'continued provision of service approach' to auditing going concern, where appropriate. Applying such an approach should enable us to increase our focus on wider financial resilience and ensure that our work on going concern is proportionate for public sector bodies.

Materiality – Pension Fund

The concept of materiality

Materiality is fundamental to the preparation of the financial statements and the audit process and applies not only to the monetary misstatements but also to disclosure requirements and adherence to acceptable accounting practice and applicable law. Misstatements, including omissions, are considered to be material if they, individually or in the aggregate, could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements.

Materiality for planning purposes

We have determined financial statement materiality based on a proportion of the net assets of the fund at the year end. In the prior year we used the same benchmark. Materiality at the planning stage of our audit is £34.7m (PY £36m) for the Pension Fund, which equates to 1% of your prior year net assets.

We reconsider planning materiality if, during the course of our audit engagement, we become aware of facts and circumstances that would have caused us to make a different determination of planning materiality.

Matters we will report to the Audit Committee

Whilst our audit procedures are designed to identify misstatements which are material to our opinion on the financial statements as a whole, we nevertheless report to the Audit Committee any unadjusted misstatements of lesser amounts to the extent that these are identified by our audit work. Under ISA 260 (UK) 'Communication with those charged with governance', we are obliged to report uncorrected omissions or misstatements other than those which are 'clearly trivial' to those charged with governance. ISA 260 (UK) defines 'clearly trivial' as matters that are clearly inconsequential, whether taken individually or in aggregate and whether judged by any quantitative or qualitative criteria. In the context of the Pension Fund, we propose that an individual difference could normally be considered to be clearly trivial if it is less than £1.7m (PY £1.8m).

If management have corrected material misstatements identified during the course of the audit, we will consider whether those corrections should be communicated to the Audit Committee to assist it in fulfilling its governance responsibilities.

Prior year net assets of the scheme

£3,479.1m Pension Fund
(PY: £3,632.9m)

Materiality

Audit logistics and team

Darren Wells, Key Audit Partner

Darren will be the main point of contact for the Chair and the Chief Executive and Board Members. Darren will share his knowledge and experience across the sector providing challenge, sharing good practice, providing pragmatic solutions and acting as a sounding board with the Corporate Management Team and Audit Committee. Darren will ensure our audit is tailored specifically to you and is delivered efficiently. Darren will review all reports and the team's work focussing his time on the key risk areas to your audit.

Andy Conlan, Audit Senior Manager

Andy will work with the senior members of the finance team ensuring early delivery of testing and agreement of accounting issues on a timely basis. Andy will attend Audit Committee, undertake reviews of the team's work and draft reports, ensuring they remain clear, concise and understandable to all. Andy will work with Internal Audit to secure efficiencies and avoid duplication.

Ezgi Aslan, Audit In-charge

Ezgi will lead the onsite team and will be the day to day contact for the audit. Ezgi will monitor the deliverables, manage the query log with your finance team and highlight any significant issues and adjustments to senior management. Ezgi will undertake the more technical aspects of the audit, coach the junior members of the team and review the teams work.

Audited body responsibilities

Where audited bodies do not deliver to the timetable agreed, we need to ensure that this does not impact on audit quality or absorb a disproportionate amount of time, thereby disadvantaging other audits. Where the elapsed time to complete an audit exceeds that agreed due to a client not meeting its obligations we will not be able to maintain a team on site. Similarly, where additional resources are needed to complete the audit due to a client not meeting their obligations we are not able to guarantee the delivery of the audit to the agreed timescales. In addition, delayed audits will incur additional audit fees.

Our requirements

To minimise the risk of a delayed audit, you need to ensure that you:

- produce draft financial statements of good quality by the agreed timetable you have agreed with us, including all notes, the Narrative Report and the Annual Governance Statement
- ensure that good quality working papers are available at the start of the audit, in accordance with the working paper requirements schedule that we have shared with you
- ensure that the agreed data reports are available to us at the start of the audit and are reconciled to the values in the accounts, in order to facilitate our selection of samples for testing
- ensure that all appropriate staff are available on site throughout (or as otherwise agreed) the planned period of the audit
- respond promptly and adequately to audit queries.

Audit fees

In 2018, PSAA awarded a contract of audit for East Sussex Pension Fund to begin with effect from 2018/19. Since that time, there have been a number of developments, particularly in relation to the revised ISA's which are relevant for the 2020/21 audit.

As communicated on pages 8-10, the new ISA540 also requires significant enhancements in respect of the audit risk assessment process for accounting estimates.

Additionally, across all sectors and firms, the FRC has set out its expectation of improved financial reporting from organisations and the need for auditors to demonstrate increased scepticism and challenge and to undertake additional and more robust testing, as noted in the number of revised ISA's issued by the FRC that are applicable to audits of financial statements commencing on or after 15 December 2019, as detailed in Appendix 1.

As a firm, we are absolutely committed to meeting the expectations of the FRC with regard to audit quality and public sector financial reporting. Our proposed work and fee for 2020/21, as a result of the additional work above, and the impact of the Redmond Review, is still being fully assessed. We will communicate the fee with your Chief Finance Officer and subsequently with the Audit Committee when this fee has been assessed:

	Actual Fee 2018/19	Actual Fee 2019/20	Proposed fee 2020/21
Pension Fund Audit	£23,487	£31,610	£TBC
Total audit fees (excluding VAT)	£23,487	£31,610	£TBC

Assumptions

In setting the above fees, we have assumed that the Pension Fund will:

- prepare a good quality set of accounts, supported by comprehensive and well presented working papers which are ready at the start of the audit
- provide appropriate analysis, support and evidence to support all critical judgements and significant judgements made during the course of preparing the financial statements
- provide early notice of proposed complex or unusual transactions which could have a material impact on the financial statements.

Relevant professional standards

In preparing our fee estimate, we have had regard to all relevant professional standards, including paragraphs 4.1 and 4.2 of the FRC's [Ethical Standard \(revised 2019\)](#) which stipulate that the Engagement Lead (Key Audit Partner) must set a fee sufficient to enable the resourcing of the audit with partners and staff with appropriate time and skill to deliver an audit to the required professional and Ethical standards.

Audit fees –detailed analysis

Scale fee published by PSAA	£20,487
<i>Ongoing increases to scale fee first identified in 2019/20</i>	
Raising the bar/regulatory factors	£3,000
Enhanced audit procedures for Valuation of Level 3 Investments	£4,000
Fee variance - additional work which was necessary to be carried out during the audit due to the added complexities of the impact of Covid-19. Communicated in the Annual Audit Letter.	4,123
Audit fee 2019/20	£31,610
<i>New issues for 2020/21</i>	
Increased audit requirements of revised ISAs	£TBC
<i>Proposed increase to agreed 2019/20 fee</i>	£TBC
Total audit fees (excluding VAT)	£TBC

Independence and non-audit services

Auditor independence

Ethical Standards and ISA (UK) 260 require us to give you timely disclosure of all significant facts and matters that may bear upon the integrity, objectivity and independence of the firm or covered persons. relating to our independence. We encourage you to contact us to discuss these or any other independence issues with us. We will also discuss with you if we make additional significant judgements surrounding independence matters.

We confirm that there are no significant facts or matters that impact on our independence as auditors that we are required or wish to draw to your attention. We have complied with the Financial Reporting Council's Ethical Standard (Revised 2019) and we as a firm, and each covered person, confirm that we are independent and are able to express an objective opinion on the financial statements. Further, we have complied with the requirements of the National Audit Office's Auditor Guidance Note 01 issued in May 2020 which sets out supplementary guidance on ethical requirements for auditors of local public bodies.

We confirm that we have implemented policies and procedures to meet the requirements of the Ethical Standard. For the purposes of our audit we have made enquiries of all Grant Thornton UK LLP teams providing services to the Council.

Other services

The following other services provided by Grant Thornton were identified.

The amounts detailed are fees agreed to-date for audit related and non-audit services to be undertaken by Grant Thornton UK LLP in the current financial year. These services are consistent with the Council's policy on the allotment of non-audit work to your auditors. Any changes and full details of all fees charged for audit related and non-audit related services by Grant Thornton UK LLP and by Grant Thornton International Limited network member Firms will be included in our Audit Findings report at the conclusion of the audit.

None of the services provided are subject to contingent fees.

Provision of IAS 19 Assurances to Scheme Employer auditors	5,000	Self-Interest (because this is a recurring fee)	The level of this recurring fee taken on its own is not considered a significant threat to independence as the fee for this work is £5,000 in comparison to the total fee for the audit of £31,610 and in particular relative to Grant Thornton UK LLP's turnover overall. Further, it is a fixed fee and there is no contingent element to it. These factors all mitigate the perceived self-interest threat to an acceptable level.

Appendix 1: Revised Auditor Standards and application guidance

FRC revisions to Auditor Standards and associated application guidance

The following Auditing Standards and associated application guidance that were applicable to 19/20 audits, have been revised or updated by the FRC, with additional requirements for auditors for implementation in 2020/21 audits and beyond.
