- identify any significant governance issues that should be included in the Council's Annual Governance Statement; and
- approve the Annual Governance Statement for signature by the Leader and the Chief Executive and publication within the Statement of Accounts

1. Supporting Information

- 1.1 The Corporate Governance framework reflects both legislative and regulatory change and is based on revised guidance from the Chartered Institute of Public Finance and Accountancy (CIPFA) and the Society of Chief Executives and Senior Managers (SOLACE).
- 1.2 The Accounts and Audit Regulations 2011 require the Council to ensure that it has in place a sound system of internal control which facilitates the effective exercise of its functions and which includes arrangements for risk management. The Council is required to conduct an annual review of the effectiveness of its system of internal control and to prepare an annual governance statement in accordance with proper practices in relation to internal control to accompany its Statement of Accounts.
- 1.3 The production of an Annual Governance Statement is the final stage of an ongoing process of review of our governance arrangements including risk management and internal control. In summary the process must involve an organisation reviewing the adequacy of its governance arrangements, developing an action plan for improving those arrangements and communicating the framework to users and stakeholders.
- 1.4 The report is to be considered by the Audit, Best Value and Community Services Scrutiny Committee on 17 July prior to the Governance Committee on 21 July. Any comments arising from the Scrutiny Committee will be reported to the Governance Committee at its meeting.
- 1.5 During 2014/15 an audit of the 2013/14 Annual Governance Statement was undertaken. The audit sought to ensure that:
 - All potential sources of assurances are identified and reported on
 - Mechanisms are in place for ensuring that identified actions are addressed, monitored and reported on
 - The process for compiling the Annual Governance is efficient, effective and fit for purpose
 - The Council's policy framework is up to date and properly communicated.
- 1.6 The audit opinion arising from the review of the Council's arrangements for the production and compilation of the Annual Governance Statement was a substantial assurance. The review concluded that there were no significant errors or gaps in the 2013/14 Statement. Recommendations were made in relation to improvements that could be made to further ensure

accuracy, completeness and consistency of the Statement and that would add further value to the governance processes during the production of the Statement. Action has been taken to ensure that the recommendations made in the audit report have been implemented.

2. Assessment of the Corporate Governance Framework for 2014-15

- The Council's corporate governance framework is underpinned by a number of key 2.1 documents and processes. These are summarised in section 4 of the Annual Governance Statement (Appendix 3).
- 2.2 The main policies and strategies that make up the Council's corporate governance framework are set out in the Local Code and are attached as Appendix 1 to this report.
- The Monitoring Officer has undertaken a review of the Council's governance arrangements for 2014/15. This review process is summarised in Appendix 2. Each document or process in the framework has been assessed and named officers have been required to provide an assurance as to whether the document is being complied with, the level of awareness of the document amongst staff and stakeholders, whether it reflects Council policy and best practice, and arrangements for reviewing it. Where further improvements are identified these are set out within the Annual Governance Statement and form part of departmental business plans for the year ahead.
- In addition all Chief Officers have signed their own Directorate Assurance Statement confirming that proper governance arrangements, effective risk management and a sound system of internal control are in place within their department. They are also asked to identify any exceptions and any actions being taken to address them. Similarly, these issues will be monitored through the relevant Business Plans.
- The overall Corporate Governance assessment and review of effectiveness has also been informed by the sources of assurance set out in section 3 of the Annual Governance Statement (Appendix 3). As part of the assurance gathering process, the CIPFA/SOLACE guidance on corporate governance was taken into account and is reflected in the Local Code.
- Evidence shows that the Council continues to have in place good arrangements for corporate governance and that they are working effectively.

3. **Annual Governance Statement**

- 3.1 An Annual Governance Statement from the Leader of the Council and the Chief Executive is included at Appendix 3. It includes the mandatory disclosure of any significant governance issues identified through the Council's governance and internal control arrangements.
- 3.2 Sound corporate governance is crucial if the Council is to continue to provide leadership, direction and control. It is important that members are aware of the documents and activities that work together to provide assurances about the Council's governance measures in place. The Annual Governance Statement provides an opportunity for the Council to assess and report transparently to the public how it ensures that it is doing the right things, in the right way, for the right people, in a timely, inclusive, open, honest and accountable manner.
- 3.3 Since the abolition of the Comprehensive Area Assessment our external auditors are no longer required to formally assess and make scored judgements on our governance arrangements. However, they do review the Annual Governance Statement and in their most recent Annual Audit Letter concluded that it was not inconsistent or misleading with other information they were aware from their audit of the financial statements and that it complied with published guidance.

2. Purpose of the governance framework

Good governance is about how the Council ensures that it is doing the right things, in the right way, for the right people, in a timely, inclusive, open, honest and accountable manner. Our governance framework comprises the systems, processes, culture and values by which the Council is directed and controlled. Through effective governance the Council is accountable to, engages with and, where appropriate, leads the community.

The code of corporate governance can provide only reasonable and not absolute assurance that the Council achieves its aim of good governance. Equally the County Council's system of internal control is designed to identify and prioritise the risks to the achievement our policies, aims and objectives, to evaluate the likelihood and impact of those risks being realised and to manage those risks efficiently, effectively and economically. It cannot eliminate all risk of failure; it can therefore only provide reasonable and not absolute assurance that our policies, aims and objectives are achieved.

The Local Code of Corporate Governance and the system of internal control have been in place at East Sussex County Council for the year ended 31 March 2015 and up to the date of the approval of the statement of accounts.

5. Assurance and Significant Governance Issues

No assurance can ever be absolute; however this statement seeks to provide a reasonable assurance that there are no significant weaknesses in the County Council's governance arrangements. On the basis of the review of the sources of assurance set out in this statement, we are satisfied that the County Council has in place satisfactory governance arrangements, including a satisfactory system of internal control, both of which are operating effectively.

As part of our review, we have not identified any gaps in assurance over key risks or significant governance issues.

The Council will continue to regularly monitor issues that may seriously prejudice or prevent achievement of its key objectives through its strategic risk review process

Both governance and internal control arrangements must be kept under review to ensure that they continue to operate effectively and meet changing legislative needs, reflect best practice and our intention to achieve excellence in all our activities. The Council, through the Directorate Assurance

Statements and the Chief Finance Officer's Assurance Statement (still, has identified a number of areas where it wishes to enhance its governance arrangements. These are set out on the attached annex A together with the department responsible for them.

The Council Plan identifies a number of areas that have governance implications and these will be monitored through the Council Plan. The areas outlined in the attached annex A will be monitored through departmental business plans.

The Council has also identified a need to develop its approach to transparency and to respond to the Government's open data agenda which will be monitored and managed.

Actions plans are in place to address these issues, and their implementation will be monitored and reviewed during the year.

Councillor Glazier, Leader Becky Shaw, Chief Executive 21 July 2015

 This will be monitored by the inspection working group and SMT.

 local voluntary sector partners, to make the best use of the knowledge, skills and
 experience that already exist within our local communities.

This will be reported through Scrutiny Committee. ADASS and the Local Government Association proposed metrics for monitoring the impact of the Care Act are expected to be introduced nationally from June 2015, aimed at understanding how much demand there will be for deferred payments, early assessments for self-funders and carer assessment and services. The annual review of the Adult Social Care Equality Impact Assessment for the revised offer will incorporate Care Act changes.
- From April 2015, Care Act related contact with Social Care Direct / Single Point of Access will be monitored to ensure demand is being adequately managed and to ensure the department is best placed to respond to the nature of the queries being received. Care Act news and other existing communication and engagement channels will continue throughout 2015/2016 to ensure staff and public information is updated accordingly. A Care Act newsletter for Providers is being developed.
- Training for the new Social Care Information System (SCIS) has been scheduled for as close to system go live as possible, to minimise the gap between training and go live. The SCIS Board has agreed a comprehensive training programme with a combination of classroom and e-learning opportunities. The e-learning will remain available after go-live to support ongoing development requirements. Floor walkers will be based in all key locations to provide immediate support to staff, and telephone support will be available for staff working remotely.
- Adult Social Care and Public Health risk logs are to be combined for DMT reporting purposes to deliver a more holistic and strategic approach to risk management across the department.
