<p>R1 Children's Centres fulfil a number of roles. The pathway aims to identify children whose language development is delayed or at risk of delay. The use of language checkers, a key element of the pathway, is extending and these materials are now available on CZONE for early years setting to access. Those families who have more complex needs are offered support at home by the Children's Centre keywork service. The keyworker will agree a plan with a family which addresses a range of issues which impact on a child's development and readiness for school.

The keywork service also offers parenting courses across the County in partnership with the NHS. Courses are scheduled in every Children's Centre Cluster. The courses offered are evidence based and cover a range of issues that impact on children's readiness to learn.

Children's Centres work closely with the health visiting service who, through the recent "Call to Action" and resulting expansion of the service, are now offering a number of universal contacts at significant points in a child's early years. Health Visitors are able to identify children who are at risk of developmental delay and signpost them to group based activity or refer them to the Team Around the Family (which includes the Children's Centre keywork service) where support needs can be discussed and a support plan developed. It would be inappropriate to duplicate these universal contacts at a time when resources are decreasing.

We have discussed with colleagues in the NHS the recent replacement of universal antenatal preparation classes with on line support. Antenatal education is not included in new

CCG colleagues and colleagues in East Sussex Health Care Trust appreciate our concern about opportunities for expectant parents to meet each other, and the need for additional support for the most vulnerable families. Very vulnerable pregnant women will receive support through the keywork service. In addition, however, we have developed plans with midwifery, health visiting and Family Nurse Partnership colleagues to deliver new group based support to young parents in Hastings. The provision is due to start in early October. If the model is successful it may be extended to vulnerable parents in other areas.</p>

The two services jointly facilitate network meetings for early years settings and have worked together to develop and implement the early communication pathway.</p> <p>Children's Centres also work closely with social care colleagues in the delivery of early help to families with complex needs. With the forthcoming transfer of commissioning responsibility for Health Visiting and the Family Nurse Partnership to the Local Authority in October 2015, a review of the structural relationship between the different elements of early years provision will be appropriate.</p>

Summary of Progress Update May 2015

- Children's Centres and the Early Years Improvement Team have looked to see how they can best enhance opportunities for the development of Early Years provision across the county. E.g. De-designated Children's Centres have been used to enable nursery provision at Silverdale Primary School and Polegate Primary School.
- The Standards and Learning Effectiveness Service and Children's Centres are also working very closely together to implement the new Integrated Progress Review for two year olds. This new review brings together the education progress check for all children aged two to three years, which is a statutory EYFS requirement, and the Two Year Olds Health Visitor Developmental Check. Four pilot areas have been identified and an evaluation and proposal for integrating the two checks will be presented in summer 2015.

Summary of Progress Update October 2015

- **Children's Centres started a detailed re-structure consultation on 1 October 2015 focusing on the requirement for significant savings over the next three years, the future priorities for delivery of children's centre services and the integration with health visiting responsibilities. The outcomes will be implemented from 1 April 2016.**
- **The Integrated Progress Review pilot has produced recommendations agreed by health and children's services through the 0-5 Commissioning Group for East Sussex. This highly successful project has required Health Visitors and early education providers to agree new ways of working when assessing children's developmental progress. The roll out of the pilot will lead to improved working across the county and better opportunities to improve outcomes for children.**

	Information for parents and carers		
R3	<p>Children attending high quality early years provision have higher levels of attainment. It is important for parents and carers to have good information so they can access high quality early years provision and understand the benefits for their children. The review board recommends that:</p> <p>a) Information for parents/carers on the quality of pre-school providers should be improved to make it easier for them to identify high quality provision in their area and those settings who are working with the Council to improve attainment.</p> <p>b) Information for parents/carers on the East Sussex County Council (ESCC) web site must be easier to find, be up to date and show the Ofsted rating for the setting together with the qualification level of the staff (e.g. an A-Z list of settings assessed as 'good' or 'outstanding' together with qualification levels of lead and support staff).</p> <p>c) The ESCC website should contain advice for parents/carers highlighting the benefits of choosing 'good' or 'outstanding' settings for children's education.</p>	<p>The SLES Early Years team has been exploring ways of improving communication with parents and carers so that information is more accessible and recognises the importance of ensuring that parents and carers receive clear information about the location and quality of Early Years settings in their area.</p> <p>Actions:</p> <ul style="list-style-type: none"> • Work with Children's Centres and other agencies to provide a wider network of communication links, so that parents and carers have a clear understanding of how to access appropriate Early Years provision /support for their children. • Improve the quality of information provided on the website. 	<p>March 2015</p> <p>November 2014</p>

Summary of Progress May 2015

- We have improved the information provided on ESCIS (community information directory), as it now includes direct links to all OFSTED reports and ratings
- There is a programme of Website updating in the Children's Services Department and the timetable for this has delayed updating. Workshops for the needs of Early Years providers and parents are planned alongside all other Children Services pages – and Early Years information will be updated for publication by September 2015.
- All families accessing two year olds funding are sent an up to date list of 'Good' or 'Outstanding' settings. Since September 2014 this list has also been available to view on the ESCC Website with the links updated to make easier searches.
- As a result of improved marketing and successfully creating a significant number of new places through capital investment, the East Sussex take up of places is significantly above the national average and the response from schools to extend their age range has also been higher than expected.

Summary of Progress Update October 2015

- **Children's Services Digital Advice and Guidance Project is working on improvements across all areas of communication. This approach includes 'Client Insight Testing'.**
- **East Sussex has received a letter from Sam Gyimah MP, the Parliamentary Under-Secretary of State for Education, recognising us as one of only 44 local authorities achieving 70-79% take-up of funded early learning places for two year olds. This is a fantastic achievement given that the average take up within our statistical neighbours was 68% placing East Sussex third out of 11. For the South East Region it was 64% placing East Sussex fourth out of 19. Nationally, the average take up was 63%, placing us 39th out of 152. The letter recognised this above average take-up and the continuing dedication to raise the standards for children from the most disadvantaged backgrounds and to give them the crucial support that they need in order to do well at school and beyond.**
- **Current take up for 2 Year Old funding in East Sussex is 82%**
- **To secure the best possible environments for the very youngest children in East Sussex. We have supported the opening of more than 1,000 new early learning places for 2-year-old children in pre-schools and nurseries rated by Ofsted to be Good or Outstanding.**

R4	<p>Summary of Progress May 2015</p> <ul style="list-style-type: none"> • A third phase of the Village Project is running this academic year (2014/15) and this has increased the number of participating schools with pre-schools attached to 40. A further phase, 4, is to be developed in the Autumn Term 2015. This extension will ensure that there are Village Projects within each Education Improvement Partnership across the county. • An EYFS lead headteachers group was established in October 2014 in order to create Early Years Hubs across the county. Terms of Reference have been agreed with the 10 Early Years Excellence Hubs now leading on local improvement activity for EYFS with schools, pre-schools and childminders. E.g. in Newhaven the Hub has focused on communication, the impact of which is that every school and pre-school within the Hub has been provided with Communicating Ink resources to provide a consistent approach across the entire area for supporting language development. • EYFS Profile outcomes from Village projects in 2014 showed: <ul style="list-style-type: none"> ○ GLD Village schools average 30.2% improvement ○ GLD East Sussex average of 22.5% improvement. <p>This significantly exceeds the 2014 target of 5% increase from the previous year. The impact of sustainable improvements into KS1 will be assessed from 2015 attainment data. However, the Term 4 progress data returns for 2015 (Phase 1 Village schools) show 73% are above target for KS1 outcomes.</p> • An OfSTED Outstanding judgement for the Early Years Foundation Stage has been given to a Hastings 'Village School' – Christchurch CE Primary – one of the Phase 1 projects (2012). • The longer term impact of the Village Project can now be seen in the way Village Project schools from Phase 1 are extending the model across schools and preschools within their alliances/Education Improvement Partnerships. The success of 'The Village' approach has also inspired headteachers and governors to take over the management of preschools on their sites and this has already brought about noticeable differences in the quality of provision and relationships between preschool providers and schools. Headteachers have become increasingly attuned to the impact their engagement with Early Years education can have on outcomes in all key stages. The Village approach is seen as a

sustainable model of improved provision, which will ultimately have an impact on children's future education opportunities.

- We also continue to work with our academy chains to promote and sustain 'The Village' approach and this has been well received. The EYFS lead for Oakwood, one of the first Village Projects, now oversees all the EYFS Villages within the Aurora Academy Chain, of which Oakwood is a member. In addition, the County Council's policy to increase maintained nursery provision is being enacted through new builds and extensions, such as the Hailsham New School and Newhaven New School (Lilac Sky Academy chain) and Ringmer Primary School (ESCC maintained).
- The capital funding available for the expansion of places for two year olds has enabled a significant investment in Early Years (Pre-school) provision on school sites. £2,290,849 has been spent (or committed to spend) to create 668 new places for 2 year olds. These places are all in areas where there are pressures for places for children eligible for Free School Meals and for families on low incomes. Where possible projects have been developed to create completely new nursery provision such as at All Saints CE Primary School, Bexhill; St Paul's CE Primary School, St Leonards-On-Sea; Silverdale Primary and Polegate Primary School. This has been supported by the Cabinet approval to de-designate Silverdale and Polegate Children's Centre buildings.

Summary of Progress Updated October 2015

- **The EYFS lead head teachers group established in October 2014 is now being re-launched in order to create Early Years Excellence Hubs across the county. This will build upon the learning from the pilots with 10 schools introduce in 2014 and makes direct links into the work of the Education Improvement Partnerships. This re-launch will take account of some changes in leadership within some of the schools leading on the development of Early Years Excellence Hubs.**
- **The Village approach to providing seamless Early Years Foundation Stage continues to be a strategy supported by more head teachers and governors. The EYFS Profile outcomes for 2015 consistently demonstrate the impact of this approach.**
- **EYFS Profile outcomes from Village projects in 2015 showed:**
 - **GLD Village schools an additional average 10.% improvement from 2014**
 - **GLD East Sussex schools an additional average of 8.4% improvement from 2014.**
- **Village schools from Phase 1 are now showing initial sustainable impact with the average improvements from 2013 to 2015 consistently above East Sussex average for 2B+ in all areas in Key Stage 1.**

- OfSTED inspection outcomes for EYFS in schools are providing clear evidence of improved standards of provision in our schools. Of the 28 schools with EYFS inspected since the introduction of an EYFS judgement in September 2014, 7% were judged outstanding, 78.5% Good and 14% Requires Improvement.

Summary of Progress Updated October 2015

- The 2015 EYFSP outcomes across all aspects of language and communication and mathematics were above the national averages:
The percentage of children achieving a good level of development (GLD) in East Sussex in 2015 was 74.3%. East Sussex was 1st among our statistical neighbours and above the England figure by 8 percentage points. East Sussex was highest among our geographical neighbours.

East Sussex pupils achieved 36.7 average total points score (APS), which is above the figure for England of 34.3 points. 34 points is the equivalent of children achieving the expected level across all early learning goals. East Sussex was 1st among our statistical neighbours and our geographical neighbours.

East Sussex made the 3rd best improvement since last year of all of our statistical neighbours and 2nd best amongst our geographical neighbours in both GLD. East Sussex made the best improvement since last year of all of our statistical neighbours and 2nd best amongst our geographical neighbours in APS,

In East Sussex girls achieved higher scores than boys in both Good Level of Development percentage and in Average Total Points score. Girls achieved 82.3% and boys 66.6% in GLD, with girls achieving 38.2 against boys 35.4 in APS.

The breakdown of results into Areas of Learning shows East Sussex better than England in all areas.

In East Sussex 76.5% of pupils achieved the expected level in Literacy against the National level of 70.1%.

East Sussex was 2nd or joint 2nd among our statistical neighbours in all areas, except 3rd in Mathematics and 4th in Understanding the World. Among our geographical neighbours,

East Sussex was 1st in Physical Development, Personal and Emotional development, Communication and Language, and Expressive Arts.

TIMESCALE

- Officers wrote to the DfE, on behalf of Schools Forum and Scrutiny to investigate the mechanism 'for calculating funding'. The DfE indicated that the basis was historical and acknowledged the inequity but noted there were no plans to address this prior to the election.
- Papers were prepared for Schools Forum in November 2014 providing a detailed breakdown of the needs for further details on the proposals from the Scrutiny committee. Further papers were prepared for the January 2015 Schools Forum. This resulted in additional funding being provided through the Dedicated Schools Grant (DSG) to support payments to providers for our most vulnerable two year olds. However, a full financial assessment of the proposals indicated that the additional areas were too costly within current financial resources. As noted earlier, reprioritisation of current resources provided support for some of these activities in relation to training and qualifications.
- It is clear that headteachers and governors across the county now have a much greater awareness of the need to invest sufficiently in Early Years education. The joint impact of the County Council's investment and the ability to use funding for 2 year olds for capital investment means that East Sussex now has significantly improved capacity to ensure that all children receive good or better education opportunities from an early age.
- Through work with the Early Years Excellence Hubs and EIPs we will continue to expand the influence of 'The Village' approach and ensure that the model is sustained and improved upon.
- During 2015/16 we will be particularly mindful of the impact of changes in assessment and the Early Years inspection framework and work to ensure that the improvement in East Sussex EYFS outcomes is not adversely affected.

Summary of Progress Updated October 2015

The introduction of the Early Years Pupil Premium from April 2015 has begun to focus on early intervention within pre-schools. Although significantly less than Pupil Premium for Schools at only 0.57p per hour for each eligible child aged 3 & 4 years. This is a welcome addition to the funding provided alongside early years education entitlement funding.

The provision of additional resources from schools forum for the most vulnerable 2 year olds has enabled eligible children known to Social Care to receive additional resources for use in pre-schools and schools providing for two year olds. Settings have been able to use this funding to attend case conferences, release staff for specialist LSCB safeguarding training and extend their work with parents.
