KPI/SLA from Altair being presented. Whilst we have caught up on some on the post backlog some remains for combinings. The quarter priorities has been the data quality, GMP reconciliation & rectification, testing the Pension increases, MSS upgrade testing. March 24 saw 11 days of Altair down time (some just the string).

New KPI/SLA MI from Altair complete but need to be run on the last day of each month. More tasks received in bulk from BHCC and backdated pay. McCloud has complicated all post October 23 activity particularly transfers (widest sense). Deferred Benefit calcs are now performed by Al and the refunds will be live next quarter (UAT on live cases did impact KPI's). Project activity remains high and keeps

New KPI/SLA MI from Altair Insights not completed yet. Backlog on Aggregations being cleared and the BHCC 2021/22 cases all at once. Next day transfer process live on 18/9/23 for all employers. New GAD Actuarial Factors in place. Resources re-deployed to work on i-Connect onboarding, ABS production, Annual Allowance projects.
