Strategic Risk Register – Q1 2024/25

Ref	Strategic Risks	Risk Control / Response and Post Mitigation RAG score	RAG
5	RECONCILING POLICY, PERFORMANCE & RESOURCE There is ongoing uncertainty in relation to future funding levels, the longer-term local government funding regime and the impact of national reforms, particularly across Children's Social Care and Adult Social Care. The impact of a period of high inflation/cost of living are leading to higher demand for Council services and have increased the direct cost of providing services. Together these create a risk of insufficient resources being available to sustain service delivery at the agreed Core Offer level to meet the changing needs of the local community. Our budget for 2024/25 includes a draw from the Financial Management Reserve to provide a balanced budget.	We employ a robust Reconciling Policy, Performance and Resources (RPPR) process for business planning, which ensures a strategic corporate response to resource reductions, demographic change, and regional and national economic challenges; and directs resources to priority areas. We take a commissioning approach to evaluating need and we consider all methods of service delivery. We work with partner organisations to deliver services and manage demand, making best use of our collective resources. We take a 'One Council' approach to delivering our priorities and set out our targets and objectives in the Council Plan. We monitor our progress and report it quarterly. Our plans take account of known risks and pressures, including social, economic, policy and demographic changes and financial risks. However, we continue to operate in changing and uncertain contexts. Current and forecast economic conditions continue to shape a very challenging financial outlook both for the Council itself and many of the county's residents and businesses. Alongside this we continue to face ongoing challenges as a result of the persistent legacy of Covid, the increased cost of living and other national and international factors. We will continue to use the latest information available on these challenges to inform our business planning. We will also continually review our performance targets, priorities, service offers and financial plans, and will update these as required. As part of this we will continue to take action wherever we can to mitigate financial and service delivery pressures – making best use of new technology, investing in our workforce, seeking efficiencies, and checking that our services are effective and provide value for money. We will look to develop and implement further measures to address the funding challenges we face.	Red

Ref	Strategic Risks	Risk Control / Response and Post Mitigation RAG score	RAG
12	CYBER ATTACK National Cyber Security Centre (NCSC) has highlighted the substantial risk to British web infrastructure, with elevated levels of Cyber Crime being reported against all areas of government, particularly in light of current international unrest. Cyber-attacks are growing more frequent, sophisticated, and damaging when they succeed. With many additional functions now routinely carried out virtually and remotely, the change in working practice gives rise to more requests to relax security controls, with services more likely to take risks on the technology they procure and how they use it. Controls have been enhanced to manage these requests. The impacts of a cyber-attack are far-reaching, and it is difficult to put a figure on the cost, but authorities that have been subject to major attacks have calculated the disruption to have cost between £10m and £12m.	Most attacks leverage software flaws and gaps in boundary defences. IT&D use modern security tools to assure our security posture: Monitoring network activity and identifying security threats; Keeping software up to date with regular patching regimes; Continually monitoring evolving threats and re-evaluating the ability of our toolset to provide adequate defence against them; Ongoing communication with the Security industry to find the most suitable tools and systems to secure our infrastructure. IT&D continues to invest in new tools, which use pre-emptive technology to identify threats and patterns of abnormal behaviour. The Council achieved Cyber Essentials Plus accreditation during 2022/23. Cyber Essentials Plus is the industry standard for the private and public sectors, underpinning safe sharing with partners and helping ensure sufficient controls are in place to minimise the risk of a cyber incident. Enhancing user awareness: Expanding E-Learning and policy delivery mechanisms to cover Cyber threat; educating staff around the techniques and methods used by active threats; and providing General Data Protection Regulation (GDPR) training and workshops to cascade vital skills and increase awareness of responsibilities under GDPR legislation. Business Continuity Scenario testing has been cascaded through Departmental Management Teams. Services hosted in ISO 27001 accredited Orbis Data Centres. As well as mitigations against attack, the following measures are currently in place to minimise the impact should there be a successful attack: •Behavioural analysis systems defend against hostile activity. •Resilient systems enhanced with immutable backups enable quick recovery. •Robust protocols for response escalation and communication.	Red
9	WORKFORCE An inability to attract and retain the high calibre staff needed could lead to a reduction in the expertise and capacity required to deliver statutory services to our residents, including to prevent harm to children, young people and vulnerable adults at the required level and standards, impacting on the achievement of the Council's strategic objectives.	 A number of strategies responding to the current significant recruitment and retention challenges have been put in place. Highlights include: On-going attendance at events such as careers fairs to maximise our presence with job seekers. Development of partnerships with organisations that support people back into employment to extend our reach into sections of the labour market that are underrepresented or face significant barriers to employment. Continued use of apprenticeships, traineeships, intern arrangements and more flexible work arrangements etc as a way of bringing in new talent to the Council. Continued delivery of our two leadership development programmes to support our talent management strategies: the 'Ladder to Leadership' programme and 'Head of Service Masterclasses'. Provision of information sessions and training around application and interview techniques for candidates who want to apply for roles at East Sussex County Council (ESCC). Engagement with employees at ESCC, who are under 25, to get feedback on what attracted them to the Council as an employer; and to begin establishing a forum for young people in the new year to highlight any issues, and to attract candidates from a younger demographic to the Council. Additional work undertaken in Q1 includes: 	Red

		- Conclusion of the exit interview pilot with proposals for future arrangements currently being developed based on the learning from the pilot.	
		- Development of a 'managers toolkit' to support strategic workforce planning within departments.	
	CLIMATE	Climate change mitigation : the science-based target is to reduce scope 1 and 2 carbon emissions by 50% every 5 years (equating to 13% per year). The focus is on buildings, as they made up 79% of carbon emissions in 2020/21. Internal oversight of progress is by the corporate Climate Emergency Board.	
	Failure to limit global warming to below 1.5°C above pre-industrialisation levels, which requires global net human-caused emissions of carbon dioxide (CO2) to be reduced by about 45 percent from 2010 levels by 2030, reaching 'net zero' by 2050 at the latest. The predicted impacts of climate change in East Sussex include more frequent and intense flooding, drought, and episodes of extreme heat, as well as impacts from the effects of climate change overseas, such as on food supply. This will lead to an increase in heat- related deaths, particularly amongst the elderly, damage to essential infrastructure, increased cost of food, disruption to supply chains and service provision, and greater coastal erosion.	 Climate change adaptation: we work with partners on some aspects of adaptation, including flood risk management plans and delivering a Heat Alert service during the summer months. In Quarter 1 2024/25: A) Mitigation: 	
15		1) Carbon Reduction Target : the target for 2024/25 is a 13% carbon reduction compared with 2023/24 and a cumulative reduction of 50% against the baseline year of 2019-20. Energy usage data for Q1 will be available in Q2.	Red
		 2) Carbon Reduction Schemes: the target for 2024/25 is for the delivery of a further 23 capital schemes. A total of 6 schemes have been delivered in Q1 (4 solar PV, 1 LED lighting & 1 heat decarbonisation scheme). The estimated outturn is for 20 capital schemes to be completed this year, as the current revenue of all capital budgets has delayed the development of the project pipeline. B) Adaptation: 	
I		1) Adaptation Plan : A climate change vulnerability and risk assessment report is due to be completed by the consultants Arup during Q2, which will be used to help inform the development of a corporate adaptation plan.	

Ref	Strategic Risks	Risk Control / Response and Post Mitigation RAG score	RAG
		Effective demand management, robust management of front door.	
		Delivery of early help services, implementation of Family Hub programme throughout 2023-24, and Level 2 Family Keyworkers.	
		Implementation, monitoring and evaluation of Edge of Care 'Connected Families', The Family Hubs programme has been implemented across E.Sussex delivering early intervention and support within communities, Connected Families (Connected Coaches and Intensive Practitioners), Foundations, SWIFT are delivering intensive evidence based interventions alongside Social Workers to maximise the opportunity for children to be cared for within their own family. There has been a 14% reduction in the number of children subject to child protection plans since February 2024, this is as a direct result of the launch of the Connected Families Intensive Practitioners (CFIP service).	
	PLACEMENTS FOR CHILDREN AND YOUNG	Further delivery of kinship/Special Guardianship Order placements.	
	PEOPLE IN OUR CARE	Capital bid for Sorrel Drive.	
20	Inability to secure sufficient high quality placements for children in our care, suitable accommodation for care experienced young people and respite provision, leading to significant financial pressure leading to significant financial pressure and poorer outcomes for children/young people.	In 2023/24 Children's Services worked with IMPOWER to enhance our approach to using data to shape placement sufficiency. We have developed trajectory planning, implemented the 'Valuing Care' approach to ensure children receiving the right care for their needs and value for money achieved, and improved support for in house foster carers, including an investment in allowances. An analysis of the children becoming Looked After during Q1 2024-2025, indicates that a high proportion (81%) are entering into foster care or kinship care provision rather than residential care.	Red
		Fostering Recruitment & Retention Strategy completed. East Sussex County Council is part of the South East Sector Led Improvement Programme, Regional Fostering Strategy and piloting Mockingbird hub.	
		Uplift to fostering allowance (for in house carers, Special Guardianship Orders, Kinship carers) approved by the Chief Management Team to help secure sufficient supply of in house foster carers as an alternative to more expensive care packages.	
		In Q3, the valuing care tools have been embedded into the business as usual with a strong focus on reunification.	
		Fostering allowance uplift has been made part of the recruitment drive. Both elements are attempting to mitigate the increased costs due to the lack of placements for Looked After Children.	

Ref	Strategic Risks	Risk Control / Response and Post Mitigation RAG score	RAG
19	SCHOOLS AND INCLUSION, SPECIAL EDUCATIONAL NEEDS AND DISABILITIES (ISEND) For Children with Special Educational Needs. Inability to secure statutory provision due to lack of availability of specialist placement within the county and increasing demand for placements in this sector. This would put the Council at risk of judicial review and/or negative Local Government Ombudsman judgements for failing to meet our duties within the Children and Families Act 2014, with associated financial penalties and reputational damage.	Effective use of forecasting data to pre-empt issues. Work with statutory partners to develop contingency plans. Work with the market to increase provision where needed. Expanding internal interim offer for children.	Red
1	ROADS Extreme weather events over recent years, including this winter, have caused significant damage to many of the county's roads, adding to the backlog of maintenance in the County Council's Asset Plan: and increasing the risk to the Council's ability to stem the rate of deterioration and maintain road condition. The economic impacts of the pandemic and events in Ukraine have had some effects on service delivery during this year, particularly with increased costs and shortages of suitable contractors and materials.	The changing climate is now influencing the rate of road deterioration, with more extreme events such as warmer wetter winters; and drier summers punctuated by unseasonal heavy downpours (drying and shrinking the substructure of roads). Additional funding over the last few years has helped maintain road condition, however, the latest condition and funding modelling showed the potential for deterioration over the next 10 years. Additional carriageway patching, footway, signing and lining works were carried out with additional budget allocated through the Reconciling Policy, Performance and Resources process in 2023 and Cabinet approved additional investment of £15.7m in June 2023 for highway maintenance. The improvements are well underway to provide greater network reliance. Deterioration in road surfaces in 2024 has continued with a wet winter and spring. Recognising this, Cabinet have approved a further £1m in July 2024 for a programme of targeted patching works to address the worst areas of road damage. Road Condition Indicator (RCI) scores for this year indicate we are on target for principal roads but slightly below target for non-principal and unclassified roads, this is what we expected from the modelling given the current conditions. The evidence shows the wet winter and spring weather has taken its toll on the condition of many of the county's roads. Mitigations include encouraging road users to report potholes so we can intervene as soon as possible in accordance with our policies, closely managing the operational performance of the highway contractor and lobbying Government for additional investment as, without it, it will be increasingly difficult to manage the risks of further decline.	Red

Ref	Strategic Risks	Risk Control / Response and Post Mitigation RAG score	RAG
18	DATA BREACH A breach of security/confidentiality leading to destruction, loss, alteration, unauthorised disclosure of, or access to, personal data. This includes breaches that are the result of both accidental and deliberate causes. A personal data breach is a security incident that has affected the confidentiality, integrity or availability of personal data regardless of whether information has been accessed, altered or disclosed via electronic or manual means. Risks to individuals, reputational damage, fines from the Information Commissioner's Officer (ICO), compensation claims.	Policy and guidance procedures in place to support practice. Data Protection Officer (DPO), Caldicott Guardians and Information Governance Officers monitor breach reporting and put in place mechanisms to minimise recurrence. Staff training to develop awareness. E-learning and policy delivery mechanism expanded to enhance skills and increase awareness of responsibilities under General Data Protection Regulation legislation. Technical security measures operated by Information Technology and Digital (IT&D), including access control and segregation of duties.	Amber
8	CAPITAL PROGRAMME There are risks and uncertainties regarding the capital programme over the current Medium Term Financial Plan period and beyond, which could impact on the ability to deliver the Council's priorities and set a balanced budget. Factors such as inflation, supply chain issues, unforeseen operational risks, and wider economic and geopolitical factors are likely to impact project deliverability and affordability. Additionally, if capital expenditure isn't profiled accurately, then significant slippage against the budgeted programme can undermine the planning process, particularly in relation to treasury management modelling and the impact of borrowing. Due to the complexity of factors and uncertainties impacting them, the level of government grants and other sources of capital programme funding such as developer contributions and capital receipts could be significantly reduced. A combination of the above risks, alongside an environment of higher interest rates, could significantly increase the cost of borrowing to fund the capital programme, increasing pressures on the Council's revenue budget in an already challenging financial environment.	The Council reviews and updates its 20-year Capital Strategy annually as part of the Reconciling Policy, Performance and Resources (RPPR) process, which sets the framework in which the capital programme is planned and allows the Council to prioritise investment to support its objectives. The development and delivery of the capital programme is overseen by a Capital Strategic Asset Board (CSAB), which is a cross departmental group, who also hear from Departmental Capital Board/Sub Boards who oversee priority areas. The capital programme includes an element of 'normal' level of inflation for ongoing target-based core programmes (as opposed to programmes that have cash limited envelopes). Additionally, a capital risk provision in the form of additional borrowing flexibility is in place to provide the ability to react to emerging risks such as supply chain issues and inflationary pressures. The level of provision is reviewed and approved on an annual basis as part of the RPPR process and is maintained by the CSAB in adherence to financial regulations. As part of the RPPR process, services are asked to provide a profiled programme based on best knowledge, which is reviewed and challenged by CSAB, to ensure the programme to reflect likely programme spend to provide greater robustness to the planning and monitoring process. The CSAB have oversight of all sources of capital funding, including grants, capital receipts and developer contributions, to ensure that assumptions are prudent and realistic, and funds are used effectively and to minimise the need to borrow. Funding announcements are actively monitored, and funding targets reviewed to minimise the impact on delivery of the capital programme, ensuring that there is sufficient liquidity to meet funding requirements. The cost of borrowing for the capital programme has a direct impact on the Council's Medium Term Financial Plan position, therefore capital investment decisions are considered as part of the RPPR process based on Treasury Management capacity and afforda	Amber

		the current financial situation and seeks to ensure that capital investment plans are affordable, prudent, and sustainable.	
6	 LOCAL ECONOMIC GROWTH The transfer of South East Local Enterprise Partnership (SELEP) responsibilities and functions to East Sussex County Council (ESCC) does not successfully integrate the development of economic strategic planning, business support, and management of capital funded programmes, into Council operations as required by Government policy. Possible consequences if the transfer is not managed successfully include: •Management, monitoring, and evaluation of the current capital programmes do not meet Government requirements, leading to potential clawback of £m funds; or an inability for ESCC to demonstrate it can manage funds successfully, affecting future allocations of growth funds. •Third parties with existing contracts may raise concerns if new / variation funding agreements are not put in place early from April 2024. •Loss of an effective 'business voice' through the current local economic growth board (Team East Sussex) and its various subgroups. •An inability to produce an agreed local economic strategy, which sets the ambitions, objectives, and key outcomes for East Sussex. 	East Sussex County Council, working with partners, has successfully secured significant amounts of local growth funding totalling £127m since 2012 via the South East and Coast 2 Capital Local Enterprise Partnerships (LEPs), to deliver a wide range of infrastructure projects in East Sussex. In August 2023, Government formally announced that direct funding for LEPs will be removed from April 2024. Upper tier local authorities (UTLA's) will then be required to take on the current non-statutory LEP powers, responsibilities, and functions. These include strategy development, business support and oversight/management of capital programmes. We submitted our proposal to Government in November 2023 to become an UTLA as per the guidance issued. East Sussex has now been confirmed by Government as a 'functional economic area' to take on LEP responsibilities. The South East Local Enterprise Partnership (SELEP) and East Sussex County Council have produced draft integration plans to mitigate the transfer risks on current and future capital programmes; and the financial, legal, and reputational risks. SELEP and our own Corporate Management Team endorsed the draft integration plans in quarter 3 2023/24, and the plans were taken to Lead Member in January 2024 and approved by Cabinet in March 2024. Further Government guidance and an Assurance Framework are due to be released in the new financial year to set out transition arrangements and have been delayed due to the general election. Essex County Council (ESCC), as the Accountable body for SELEP, are producing a Transition Agreement between all six of the upper tier local authorities (incl. ESCC) and the Government department to hand over local accountable body responsibilities for the legacy capital programmes to UTLA's. This document is difficult upper tier of dardes the Government teepriment of the ausence of this agreement, East Sussex has established Team East Sussex board with new terms of reference. A draft version of the local economic prosperity strategy has been produc	Amber
		The County Council is already in a good position to mitigate the risks on business support and ensuring business has a voice. We directly run the Business East Sussex Growth Hub services and	

Ref	Strategic Risks	Risk Control / Response and Post Mitigation RAG score	RAG
		Government have committed to fund this in 2024/25. A funding allocation and contract have now been received and information is being submitted back in quarter 1 for approval from Government. We will also ensure the business voice continues to be heard through Team East Sussex, our local strategic advisory economic growth board for the county which continues to meet on a quarterly basis.	
	HEALTH Failure to secure maximum value from partnership working with the National Health Service (NHS). If not achieved, there will be impact on social care, public health and health outcomes and increased social care operational and cost pressures, as well as shared Integrated Care System objectives for jointly managing patient flow through our System. An increase in activity and complexity in the presentation of patients through our acute hospital sites, has resulted in an increase in the NCTR (No Criteria to Reside) numbers and presents a system risk in respect of adequate patient flow.	East Sussex was allocated £5,088m, as part of the national Government Discharge Fund Grant for 2024/25, to support local authorities to build additional adult social care and community-based reablement capacity to reduce hospital discharge delays by delivering sustainable improvements to services for individuals - focussed on improving discharge to home, alongside increased therapy and assessment provision and associated plans to reduce the use of bedded discharge pathways.	
		Funding allocations have been agreed for Q1 2024/25 and rolled forwards for the remainder of the financial year. The Integrated Care Board (ICB) has retained the £4m uplift, to be used as transformation monies to cover dual running costs/pump priming to affect the change and pace needed to avoid delays in hospital settings.	
4		Collaborative work continues with system partners on our Discharge Transformation work, 6 areas of work have been identified to address the increase in the number of patients who no longer meet the Criteria to Reside in an acute hospital bed. Demand and capacity modelling will also be undertaken to inform the capacity requirements for the system going forward and inform best use of discharge funding.	Amber
		In 2023/24 we agreed our footprints, and a pan-Sussex core offer for Integrated Community Teams (ICTs) has been developed. Shared development of ICTs, which align with borough and district boundaries, will be focussed on proactive care for the most complex and vulnerable patients, and population health improvement. These will also address local priorities based on intelligence and insight, and data packs have been produced for each area to help further understand and address local health and care needs and inequalities.	
		Building on our progress with integrated care in East Sussex, we have started the process of identifying leadership infrastructure for our 5 ICT footprints in East Sussex. Development sessions have been held in all 5 footprints to start to identify and plan collaborative action, and relevant tests of change to further integrate service delivery.	

Ref	Strategic Risks	Risk Control / Response and Post Mitigation RAG score	RAG
		These are known issues for virtually all local authorities with social care responsibilities as this activity falls within our duties under the Care Act 2014 and Mental Capacity Act 2005.	
	Care Act reviews and Deprivation of Liberty	Performance is therefore tracked on a monthly basis by the Adult Social Care and Health (ASCH) Department and benchmarked wherever possible. For Care Act reviews, for example, our performance is 8th out of 16 South East authorities.	
>	Safeguarding (DoLS) assessments	Mitigations and actions:	
New	Demand exceeding capacity for annual Care Act reviews and Deprivation of Liberty Safeguarding (DoLS) assessments	Additional resource has been deployed to undertake DoLS assessments (August '24) to ensure more timely response to requests. The impact of this is expected to be realised in Q4 2024/25.	Amber
		Care Act Reviews – ASCH completed 15,413 reviews in 2023/24. Our agreed target performance is 66.6% and the forecast outturn for 24/25 is 60.5%. A project manager has been in post since April and has already succeeded in significantly reducing the maximum waiting time for reviews.	
		Young carers reviews are undertaken by Imago Community, ensuring a timely assessment and review for this cohort.
