The "call answer time" SLA on the mainline is under investigation with BT since early June 22 and it is believed this has not been reporting correctly since September 2021. The SLA% has now been resolved, but the helpdesk is unable to go back and correct the SLA% from previous months but it was corrected mid-June, so the July report will show a true picture. Amanda Cutter looks at the report from Cisco daily now to ensure a problem like this does not reoccur/ unnoticed.

We are initiating a possibility of using a Chatbot (robot) as an online support tool to help with FAQs.

Telephone survey

This is a new service starting in December 21.

Questions raised by email within 24hrs of call where a caller says they are willing to complete a short survey:

1. How easy was it for you to contact the Pensions Helpdesk today?
2. How confident are you that your question was resolved or will be resolved in the relevant timelines?
3. Based on your recent experience how strongly would you recommend using the Helpdesk to a colleague?
4. How satisfied were you with your overall experience today?
