

## Equality Impact Analysis Template

**Equality Impact Analysis (EqIA) (or Equality Impact Assessment) aims to make services and public policy better for all service-users and staff and supports value for money by getting council services right first time.**

We use EqIAs to enable us to consider all relevant information from an Equality requirements perspective when procuring or restructuring a service, or introducing a new policy or strategy. This analysis of impacts is then reflected in the relevant action plan to get the best outcomes for the Council, its staff and service-users.

EqIAs are used to analyse and assess how the Council's work might impact differently on different groups of people. EqIAs help the Council to make good decisions for its service-users, staff and residents and provide evidence that those decision conform with the Council's obligations under the Equality Act 2010.

## Initial assessment of whether your project requires an EqIA

When answering these questions, please keep in mind all legally protected equality characteristics (sex/gender, gender reassignment, religion or belief, age, disability, ethnicity/race, sexual orientation, marriage/civil partnership, pregnancy and maternity) of the people actually or potentially receiving and benefiting from the services or the policy.

In particular consider whether there are any potential equality related barriers that people may experience when getting to know about, accessing or receiving the service or the policy to be introduced or changed.

Discuss the results of your Equality assessment with the Equality Lead for your department and agree whether improvements or changes need to be made to any aspect of your Project.

	Question	Yes	No	Don't Know
1	Is there evidence of different needs, experiences, issues or priorities on the basis of the equality characteristics (listed below) in relation to the service or policy/strategy area?	Yes		
2	Are there any proposed changes in the service/policy that may affect how services are run and/or used or the ways the policy will impact different groups?	Yes		
3	Are there any proposed changes in the service/policy that may affect service-users/staff/residents directly?	Yes		
4	Is there potential for, or evidence that, the service/policy may adversely affect inclusiveness or harm good relations between different groups of people?		No	
5	Is there any potential for, or evidence that any part of the service/aspects of the policy could have a direct or indirect discriminatory effect on service-users/staff/residents ?		No	
6	Is there any stakeholder (Council staff, residents, trade unions, service-users, VCSE organisations) concerned about actual, potential, or perceived discrimination/unequal treatment in the service or the Policy on the basis of the equality characteristics set out above that may lead to taking legal action against the Council?		No	
7	Is there any evidence or indication of higher or lower uptake of the service by, or the impact of the policy on, people who share the equality characteristics set out above?	Yes		

If you have answered “YES” or “DON'T KNOW” to any of the questions above, then the completion of an EqIA is necessary.

The need for an EqIA will depend on:

- How many questions you have answered “yes”, or “don’t know” to;
- The likelihood of the Council facing legal action in relation to the effects of service or the policy may have on groups sharing protected characteristics; and
- The likelihood of adverse publicity and reputational damage for the Council.

## 2. Review of information, equality analysis and potential actions

Consider the actual or potential impact of your project (service, or policy) against each of the equality characteristics.

<b>Protected characteristics groups under the Equality Act 2010</b>	<b>What do you know?</b> Summary of data about your service-users and/or staff	<b>What do people tell you?</b> Summary of service-user and/or staff feedback	<b>What does this mean?</b> Impacts identified from data and feedback (actual and potential)	<b>What can you do?</b> All potential actions to: <ul style="list-style-type: none"> <li>• advance equality of opportunity,</li> <li>• eliminate discrimination, and</li> <li>• foster good relations</li> </ul>
<b>Age</b>	There are no age limits on people travelling by bus; but children and older persons may feel uncomfortable travelling by bus alone, given the fast-paced nature of public transport, concerns about safety (both in relation to accidents and potential for harm/ abuse from other passengers) and inexperience. Cost is sometimes a barrier to bus use. Nationally over 65s are 12x more likely to be non-users and 6x more likely to be limited users.	Parish council request for telephone contact information to be on promotional literature in addition to online links.	Actions to ensure bus drivers will be more welcoming, understanding and confident when equipped with better customer service skills.  Address concerns about safety where possible.  Consider options to reduce costs of travel through targeted concessions.	Monitor feedback through established channels and passenger forums.  A requirement of the Enhanced Partnership is that bus drivers will receive customer service training as part of their employment. Focus will be given on people sharing protected characteristics, particularly around how bus drivers can assist persons that may be considered vulnerable, i.e. children and older people.

				Increased bus frequency, operational hours and improved bus stop infrastructure should lead to an increase in patronage, and increased natural surveillance (i.e. more buses on the road, resulting in more bus passengers on board buses and around bus stops, and more bus drivers/buses with CCTV and lighting).  Reduced fares for young passengers under the age of 30 have been introduced. Older passengers who meet the national criteria, can apply for concessionary bus passes.

				Updated older person's concessionary pass posters accordingly. Actively working with bus operators and others to disseminate non-digital bus information (at bus stops and elsewhere).
<b>Disability</b>	Disabled people may feel uneasy around using public transport, with concerns about safety or lack of assistance when needed and/or barriers created by physical accessibility of buses.  Households headed by a person with a disability are disproportionately likely to be on lower incomes. They can also face greater costs due to disability.	Bus operators have feedback that some bus stops are frequently blocked by unauthorised stopping in them.  ESCC and bus operators continue to engage with interested parties, to better address issues around access and disability on the public transport network.	There is no change to vehicles used for public transport – these already meet regulation requirements.  Plan improvements to roadside bus stop infrastructure where funding permits.	Monitor feedback through established channels and passenger forums.  All buses in East Sussex are required to meet Public Service Vehicles Accessibility Regulations and be class 1 & 2 wheelchair accessible. Buses must have lowering suspension to further assist embarkment & disembarkment, and offer priority seating. Disabled persons may be eligible

<b>Pregnancy and maternity</b>	Those pregnant or in maternity may have negative perceptions around safety on public transport or feel concerned about potential accidents to them or to babies and young children.	Bus operators in East Sussex designate priority seating for pregnant people, as well as space designated for pushchairs. It is common courtesy for passengers to give up their seat to those who are more likely to need to sit whilst the vehicle is in motion, and the bus driver may ask anyone in those seats to offer their seat to disabled or pregnant persons if needed.	Those pregnant or who have small children or babies have priority space on board buses.	Monitor feedback through established channels and passenger forums.  Bus drivers will be given appropriate training to make those pregnant with young children/babies feel comfortable whilst on board buses.

Characteristic	What do you know?	What do people tell you?	What does this mean?	What can you do?
<b>Rurality</b>	Rural bus services are currently very sparse.		More buses are needed to serve rural areas.	Monitor feedback through established channels and passenger forums.  BSIP aims to reduce fares for all bus users with a focus on rural journeys and improve rural bus routes with particular emphasis on flexible/demand responsive transport
<b>Carers</b>	Disabled people may require carers and both persons may use bus transport. Households with carers are disproportionately likely to be on lower incomes.	Carers of people requiring them are already eligible for free bus travel through the English National Concessionary Travel Scheme (ENCTS). ENCTS concessions will be accepted on board any services introduced or falling under the realm of BSIP.	Ultimately there will be improved bus services for carers. No negative impacts have been identified through any BSIP scheme.	Monitor feedback through established channels and passenger forums.

<p>The Bus Service Improvement Plan, delivered through the Enhanced Partnership, has been subject to stakeholder engagement and public consultation in order to address its impact on protected characteristics and to integrate the perspectives of these groups.</p> <p>It is recognised, through other regional local authorities, that there may be some negative perceptions of safety of public transport for certain groups in society, including women, LGTBQ people, people from ethnic minority backgrounds and/or diverse religions, are thought to feel more vulnerable. However, the BSIP will improve passenger security by increasing natural surveillance as passenger numbers rise; and through more reliable and frequent bus services. This, along with improved safety features (such as lighting and CCTV) at stops and on-board buses, should help to improve the safety of vulnerable users.</p> <p>The BSIP should see increased social mobility for all users in the county, and help to encourage more people to use public transport through better bus services, lower &amp; simpler fares and improved cross-service integration in key locations.</p>				

Characteristic	What do you know?	What do people tell you?	What does this mean?	What can you do?
<p>The BSIP programme comprises of many individual schemes which will create the desired end state. These schemes will be delivered throughout the programme and should be delivered in full by March 2025. Dynamic equality impact assessments (EqIA) will take place for individual schemes as and when they begin. Should it be identified that a scheme may disproportionately impact a protected characteristic, then a written EqIA will be undertaken.</p>
