

County Council – 6 February 2024

Cabinet's report paragraph 2 – Reconciling Policy, Performance and Resources

Additional Cabinet recommendation:

- (12) Agree to welcome the indication of the additional social care grant which would reduce our need to draw on reserves, and that, once the final amount has been confirmed and the Council's end of year financial position ascertained, a report be brought to Cabinet to consider further investment in highway maintenance to support our initiative for visibly better roads.
